

Fort Greene

FDNY EMS Station 31 Renovation

FDNY EMS responds to over 1.6 million emergencies annually across New York City. Located in Fort Greene, Station 31 serves nearby residents during life-threatening incidents. A \$500,000 allocation would partially fund renovations, modernizing the outdated 1960s interior to create a safer, more functional workspace. It would also upgrade lighting and electrical systems to improve energy efficiency, reliability, and safety, ensuring the station meets modern demands. A renovated station will better support EMS workers, enabling faster and more effective care for the community.

Fort Greene

NYC H+H Gotham Health Eye and Vision Expansion

NYC Health and Hospitals aims to provide healthcare to all New Yorkers, regardless of their ability to pay, by providing affordable comprehensive healthcare. H+H Gotham Health's Cumberland Optometry Department provides annual eye examinations, vision correction, treatment of eye disorders, and more. A \$150,000 allocation would help renovate eye clinical rooms, including new medical equipment, slip lamp, exam chairs, lighting, flooring, millworks, hands free sinks, exam TV, retinal machine, visual field analyzer and auto refactor.

Crown Heights

Crown Heights Roadway Repaving

New York City roads are among the worst in the nation, costing motorists nearly \$3,700 annually in higher vehicle expenses as a result of poor road conditions. More than 12,640 residents of Community Districts 8 and 9 drive a vehicle to work, and poor road conditions impact not only their ability to get to work but also slow delivery times for businesses. A \$250,000 would repave one lane mile in Crown Heights and improve road conditions for drivers, cyclists, and pedestrians alike.

You can vote either in person at a designated polling site during hours of operation or online at any time. Any district resident age 11 or up is eligible to vote. For more information including a list of poll sites, hours, and a link to vote online, visit: bit.ly/D35PBVote

VOTE TODAY

MAR 29-APR 6

Participatory Budgeting (PB) is a process where you decide how to spend \$1 million to improve our community, our district, and our home.

PARTICIPATORY BUDGETING

VOTE

for 5 of these 10 projects in District 35

District-wide

District 35 Street Tree Guards

Street trees provide critical environmental services to our neighborhoods — absorbing floodwater, providing shade, trapping air pollution, and providing shelter for wildlife. Our district has many tree beds with live trees that are not protected by tree guards, which help minimize soil compaction and protect trees from physical harm and pet waste. A \$120,000 allocation would provide funding for 75 tree guards throughout District 35. A more protected tree canopy ensures that residents can enjoy the benefits that trees provide to our community.

Crown Heights

Ebbets Field Middle School Food Pantry

Ebbets Field Middle School in Crown Heights serves 141 students, 99% of whom are students of color and 89% are economically disadvantaged. Across the city, food pantries provide essential resources, with usage rising since the Covid-19 pandemic. A \$100,000 allocation would fund a food pantry at Ebbets Field Middle School, offering low-income families access to nutritious, culturally appropriate food, helping to alleviate food insecurity and support the health and well-being of the school community.

Crown Heights

Clara Barton High School Dental Technology Lab Upgrade

Clara Barton High School is a public high school in Crown Heights with 1,254 students, 98% of whom are students of color and 80% of whom are economically disadvantaged. Its Dental Technology Lab offers hands-on experience to learn the skills necessary to work in a dental lab. A \$285,000 allocation would go towards installing custom dental equipment and furniture for the students of this program and further job readiness post graduation.

Clinton Hill

Albert Parham Park Renovation

Albert Parham Park provides the surrounding Clinton Hill community with free and accessible amenities like basketball and handball courts. The playground serves children throughout the neighborhood, including neighboring students of PS 20. The park is also home to one of the only public minipools in the area. A \$500,000 allocation would provide partial funding for a full playground renovation, including play equipment for all ages, safety surface, pavement, drainage, spray shower, landscaping, path, seating, security lights and adult fitness area.

Clinton Hill

Greene Playground Renovation

Greene Playground is a vital community space in Clinton Hill that offers recreational space with basketball and handball courts on site for the surrounding area. The playground neighbors PS 11 and serves as an essential outdoor space for the school. A \$500,000 allocation would partly fund the second phase of Greene Playground renovation, which will transform the multi surface play area into basketball courts, new fencing and benches, reconstructed handball court, and landscaping.

Clinton Hill

PS46/FGPA Cafeteria Upgrade

PS 46 and Fort Greene Preparatory Academy share a campus at 100 Clermont Avenue, serving 382 students. At PS 46, 97% are students of color, and 89% are economically disadvantaged; at Fort Greene Prep, 81% are students of color, and 70% are economically disadvantaged. Currently, their shared cafeteria needs repairs and upgrades. A \$200,000 allocation would fund renovations, improving seating and the overall dining environment, ensuring a better experience for students who rely on this space daily.

Crown Heights

Medgar Evers College Preparatory School - Tech Upgrades

Medgar Evers College Preparatory School is a public middle and high school in Crown Heights with 869 students, 99% of whom are students of color and 58% of whom are economically disadvantaged. The school is driven by a mission focused on college readiness, with a 100% four-year graduation rate. The school needs technology upgrades to support growing educational needs. A \$115,000 allocation would go towards purchasing laptops, laptop carts, desktops, and printers for Medgar Evers College Preparatory School.
