Department of Education

The Department of Education (DOE or the Department) provides primary and secondary education to over one million students, from pre-kindergarten to grade 12, in 32 school districts in over 1,800¹ schools and employs approximately 75,000 teachers. The DOE prepares students to meet grade level standards in reading, writing, and math, and prepares high school students to graduate ready for college and careers. The Department also operates the school food service program, maintains public school buildings and offices, and provides transportation services to students. Out of the 1,800 schools the DOE funds, 209 of them are charter schools. Finally, the DOE provides special education instructional services and related therapies to students enrolled in both public and private school settings.

In addition, the School Construction Authority, coordinates the development of the DOE's Five-Year Capital Plan, selects and acquires sites for new schools, leases buildings for schools and supervises the conversion of space for classroom use. A separate report about the Department's capital budget and Five-Year Plan is available here: http://council.nyc.gov/html/budget/fy17_documents.shtml.

This report provides a review of the Department of Education's Preliminary Budget for Fiscal 2017. The first section presents the \$22.9 billion Fiscal 2017 Expense Budget, the impact of State and federal budget actions, and describes initiatives funded by the Council.

The report then presents the Department's contract budget, discusses the budget by program area, and reviews relevant sections of the Preliminary Mayor's Management Report for Fiscal 2017 (PMMR). Miscellaneous revenue for the DOE in Fiscal 2017 is presented in Appendix A. Finally, changes to the budget included in the November and Preliminary Financial Plans are summarized in Appendix B.

Fiscal 2017 Preliminary Budget Highlights

<i>Dollars in Thousands</i>	2014	2015	2016	Preliminary Plan		*Difference
	Actual	Actual	Adopted	2016	2017	2016 - 2017
Personal Services	\$13,064,265	\$13,290,889	\$14,012,781	\$14,040,326	\$14,812,846	\$800,065
Other Than Personal Services	7,021,022	7,458,434	7,896,926	7,932,174	8,068,336	171,410
TOTAL	\$20,085,287	\$20,749,323	\$21,909,707	\$21,972,500	\$22,881,182	\$971,475

*The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.

The City's Preliminary Fiscal 2017 Budget is \$82.1 billion, \$3.6 billion more than the Fiscal 2016 Adopted Budget of \$78.5 billion. The Department of Education's Fiscal 2017 Preliminary Budget totals \$22.9 billion (including City and non-City funds); this represents approximately 28 percent of the City's total Budget. This number does not include the DOE's total pension and debt service. Total pension costs for Fiscal 2017 are projected to be \$3.9 billion and total debt service is \$2.4 billion for total Fiscal 2017 education-related spending of \$29.2 billion. However, since pension and debt service costs are not included in the DOE's budget, when discussing the Department's Preliminary Budget, we refer only to

¹ New York City Department of Education, *About Us*. <http://schools.nyc.gov/AboutUs/default.htm>

the Department's budget of \$22.9 billion. The Department of Education's Fiscal 2017 Preliminary Budget is substantially larger than the Fiscal 2016 Adopted Budget of \$21.9 billion.

The most significant programmatic increases for the Department Preliminary Plan are largely due to recognizing the Administration's priorities, such as the Equity and Excellence initiative, increasing and improving mental health services and improving school climate. The Department also plans to provide schools with a budget increase through an increased Fair Student Funding allocation. Further details of these programs are listed below.

Equity and Excellence. In September 2015, the Administration announced new initiatives aimed at raising achievement of students across all public schools. In order to accomplish this, several new programs were announced to help provide a foundation for every student in every school that helps prepare students for success in college and future careers. The goal is to ensure students master critical skills on time and also invests in their future. The following programs are part of this initiative.

- **Universal Literacy.** The 2017 Preliminary Plan provides \$16.4 million to improve literacy among elementary school students. In order to achieve this, every elementary school would receive support from a reading specialist who would ensure all students are reading on grade level by the end of 2nd grade. English Language Learners and students with disabilities would receive additional support to ensure they are on track with their peers. In Fiscal 2017, total headcount for this program is expected to reach 104 positions. This program is projected to be fully implemented by Fiscal 2019 at a cost of \$75 million a year.
- **Algebra for All.** Today, only 60 percent of New York City middle schools offer algebra in 8th grade.² The 2017 Preliminary Plan includes \$20.8 million in Fiscal 2017 and in the outyears to ensure that all students complete algebra before they finish middle school. This would allow students to take more advanced math courses in high school and be better prepared for college and future careers. This funding would go towards professional development for algebra teachers, support for students struggling with algebra and expand the availability of algebra courses in middle schools. The Fiscal 2017 Budget has a total of 10 positions for Algebra for All. This program is expected to be fully phased-in by Fiscal 2022 and the first new algebra programs would begin this fall.
- **AP for All.** The Fiscal 2017 Preliminary Plan includes \$12.6 million to ensure that all high school students have access to at least five Advanced Placement (AP) courses. The availability of at least five AP courses would be phased-in to high schools over time. The 2016-2017 school year would see the first cohort of courses added with the goal of reaching 75 percent of high schools by 2018. Funding increases in the outyears and are expected to grow to \$51 million when fully phased-in. There are a total of 134 new positions included in the Fiscal 2017 budget to support the expansion of AP courses.

² Office of the Mayor, *Equity and Excellence: Mayor de Blasio Announces Reforms to Raise Achievement Across all Public Schools*, September 2015. <http://www1.nyc.gov/office-of-the-mayor/news/618-15/equity-excellence-mayor-de-blasio-reforms-raise-achievement-across-all-public>.

- **College Access for All.** The 2017 Preliminary Plan allocates \$8.8 million to provide students in grades 6 through 12 with the opportunity to visit a college campus. Planning within schools began this year and programs would begin in the fall. The Fiscal 2017 budget has a total headcount of 32 positions for this program. College visits for middle school students are expected to be fully phased-in by Fiscal 2018 and visits for high school students would be fully phased-in by Fiscal 2019.
- **Single Shepherd.** Every student in grades 6 through 12 in School Districts 7 (Bronx) and 23 (Brooklyn) would be paired with a guidance counselor or social worker to help support them through graduation and college enrollment. These two school districts were selected because they are among the lowest performing in New York City. This program is expected to start in the fall at 52 schools reaching 16,000 students in the upcoming school year. In the Preliminary Plan, headcount increases by 134 positions for this program. It is expected to cost \$15.2 million a year, which was included in the Preliminary Plan for 2017 and in the outyears.
- **District Charter Learning Partnerships.** In order to foster relationships between districts and charter schools, schools would be paired to share best practices. Initial pairings would focus on the instruction of English Language Learners and math. This program is expected to be fully phased-in by Fiscal 2018 and would start in the upcoming school year. There are six positions associated with the initiative. The Preliminary Plan includes \$3 million for Fiscal 2017 and increases in the outyears to \$5 million when fully phased-in.

Mental Health Services. As part of Thrive NYC, the Administration’s mental health plan, the Preliminary Plan makes an investment in mental health services in schools throughout New York City. One of the goals of Thrive NYC is to “act early” by providing early intervention and prevention to school aged children. According to the Administration, “18 percent of children aged zero-17 experience two or more adverse events such as divorce, domestic violence, or family financial strain. Exposure to these kinds of life events can make it more likely for children to develop mental illness later in life.”³ Additionally, “27 percent of public high school students in New York City report feeling sad or hopeless almost every day for the prior two weeks - a predictor of depressive illness.”⁴ The following programs are part of this initiative to support mental health services in schools.

- **Social Emotional Learning for UPK.** In order to support children’s social emotional development, the DOE would provide programs with social workers trained to implement the Pre-K for All Positive Behavior Guidance model. This model would help teachers and families in skills-building and behavior management. In addition to teacher training, all pre-k families would receive a toolkit to practice this model at home and some families would be able to attend an on-site parenting program to help develop these skills. In total, 125 existing social workers would be trained to develop the capacity of teachers and parents. The Preliminary Plan commits \$8.1 million for this program in Fiscal 2017, growing to \$9.1 million in Fiscal 2019.

³ Mental Health Roadmap, *Thrive NYC*. <https://thrivenyc.cityofnewyork.us/>.

⁴ *Id.*

- **100 High Needs Schools.** 100 schools with the highest suspension rates in New York City have been chosen to receive additional mental health services. Schools and students would each receive a mental health needs assessment and services would be provided through community-based organizations (CBOs). The Preliminary Plan includes \$62 million to this program in Fiscal 2017 and in the outyears.

School Climate. The Administration is committed to the development of schools in which students feel accepted, valued, respected and included. In order to achieve this, a significant investment is being made to change school culture; including funding several programs aimed at increasing restorative justices practices. Restorative justice programs change the culture within schools specifically by changing the school's approach to student discipline. The Council made a significant investment in restorative justice programs this fiscal year, laying the groundwork for this proposed expansion. The Administration has proposed several new needs to expand restorative justice programs in City schools.

- **Building Capacity for Restorative Practice Trainers.** One approach the Administration proposes is to build internal capacity in restorative practice training. According to the Administration, building internal capacity would reduce training and support costs and expand the restorative program throughout the entire City. Borough Field Support Centers currently have up to two School Climate managers and two School Crisis managers. These managers and additional Office of Safety and Youth Development (OSYD) staff would be trained as trainers in restorative practices. Under this model, 50 DOE employees would be trained to be trainers and train school teams. The Fiscal 2017 Preliminary Plan includes \$580,000 for this program.
- **Restorative Practices for District 18.** In the upcoming school year, the DOE would implement an initiative where all schools in District 18 would receive restorative practices support. Based on suspension data from 2014-2015, District 18 has the highest suspension rate citywide. Each school would identify five staff members to be trained and the schools would receive four days of on-site coaching provided by a CBO partner. In addition, the district would receive one staff person to serve as the coordinator responsible for organizing trainings for schools and provide support to build capacity at the school level. The Fiscal 2017 Preliminary Plan includes \$530,000 for this program.
- **Restorative Practices for Warning Card Schools.** The New York City Police Department (NYPD) and the Department of Education have identified five campuses in the Bronx to participate in the Warning Card initiative. Under this initiative, the NYPD officers and School Safety Agents would have the discretion to issue a warning card to students who are 16 years of age or older in lieu of a summons for disorderly conduct or possession of marijuana while on school grounds. To provide additional support to these campuses, the DOE would begin offering training in restorative practices in the spring of 2016 with full implementation in school year 2016-17. Each school would identify five staff members to attend training for a total of 160 staff members to be trained. In addition, each campus would have a coordinator trained; making the total count of staff trained 165. The Preliminary Plan includes \$500,000 to support this program.

- **Safe and Supportive Opportunity Program Expanded (SSOPE).** Under this program, 20 schools would receive social emotional and progressive discipline supports. Schools would also hire a School Culture/Community Services Coordinator who would serve as the liaison between OSYD and the school. This person would identify staff to be trained in restorative practices and other progressive discipline supports, facilitate social emotional supports, establish relationships with CBOs to support the school and implement regular meetings with school administration and staff to support the implementation of the program. In total, headcount increases by 28 positions in Fiscal 2017 and the Preliminary Plan includes \$5.3 million to support this program.
- **Therapeutic Crisis Intervention.** The goal of this program is to reduce the number of 911 calls placed from schools. In order to achieve this, staff would be trained in de-escalation techniques at schools with the highest incidence of 911 calls. This program is projected to begin in September in 125 schools and \$87,538 was included in the Fiscal 2017 Preliminary Plan.

School Budget Increase. The Fiscal 2017 Preliminary Plan includes a \$158.7 million increase to Fair Students Funding (FSF) in order to increase school budgets. The funding will be given directly to schools to raise the FSF funding floor so that all schools are operating with at least 87 percent of funding. Currently, the base amount schools operate with is 82 percent. Under this plan, all Renewal Schools will be given 100 percent of their budget. Additionally, the weight for English Language Learners (ELL) and Students with Interrupted Formal Education (SIFE) will increase; meaning that schools would receive additional funding for each ELL and SIFE student they serve. The ELL increase is a State mandate, which now requires the DOE to provide additional services to ELL students for two years after they exit the ELL program, and the City has chosen to increase funding for SIFE students.

Funding Summary

The Department of Education receives federal and state aid in addition to its City tax-levy (CTL) funds. Chart 2 below shows the various funding sources, including notable state and federal aids.

Chart 2: DOE Funding Summary				
<i>Dollars in Thousands</i>				
	Adopted	Preliminary Plan		*Difference
	2016	2016	2017	2016 - 2017

**The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.*

City Funding

The DOE's Fiscal 2017 Preliminary Budget totals approximately \$22.9 billion, which reflects an increase of \$971.5 million compared to the Fiscal 2016 Adopted Budget. The Preliminary Budget includes \$530.7 million in City funding of which \$293 million is new needs and the remainder is other adjustments. New York City provides approximately 47 percent of the funding for the Department.

State Funding

The DOE's Fiscal 2017 Preliminary Budget shows a \$366.7 million increase in State funds as compared to the Fiscal 2016 Adopted Budget. It is important to note that the projected State funds reflected in DOE's Preliminary Plan do not match the State's Executive Budget,

but rather reflect what the City expects to receive in the State's Enacted Budget. In total, the Governor's proposed 2016-2017 aid to New York is \$160 million less than the City's financial plan is projecting. Other State aid, including formula and categorical aid remains approximately the same as the previous year.

- **Foundation Aid.** The Fiscal 2017 Preliminary Budget includes a \$422 million increase in Foundation Aid compared to the Fiscal 2016 Adopted Budget. The Administration projected this increase based on normal growth rates for the State. This amount could decrease if it is not reflected in the Enacted State Budget. The discrepancy in foundation aid between the two budgets is \$148.7 million.
- **Charter School Costs.** Additionally, there are other increased expenses proposed in the State's Executive Budget that could affect New York City that are not reflected in the Preliminary Plan. For example, the 2016-2017 Executive Budget recommends unfreezing the charter school per pupil tuition rate for schools in New York City, which would increase the amount the DOE is mandated to spend on charter schools, however this potential increased expense is not reflected in the City's Preliminary Plan.

Federal Funding

The DOE's Fiscal 2017 Preliminary Budget includes a \$17.6 million increase in federal funds compared to the Fiscal 2016 Adopted Budget. This increase is due to an increase in federal funding to support the breakfast program. The actual increase to the breakfast program is \$27.5 million; however, it is offset by a decrease in other federal funding. In total, the Preliminary Plan reflects a loss of \$9.9 million. However, the majority of federal funding remains unchanged compared to last year. Federal aid is a smaller portion of DOE's budget, comprising only seven percent.

Other Categorical Funding

Other Categorical funding in Fiscal 2017 includes \$50 million in private grants, \$49.5 from the SCA for capital work performed by the School Facilities Division, \$1 million for non-resident tuition, and \$5.3 million for the Retirement System (BERS). Overall, there is a decrease when compared to the Fiscal 2016 Adopted Budget due to a loss in revenue from the SCA of \$31 million. This reduction is more accurately described as an underestimate. It is unlikely that the SCA will reduce the amount of work that it assigns to the School Facilities Division next year, especially given the increase in funding for the Five-Year Capital Plan and the current competitiveness of the construction market.

Miscellaneous Revenue

In addition to revenue from outside sources, the Department also generates revenue from several programs. DOE's miscellaneous revenue is projected to total \$55.9 million in Fiscal 2017. This includes \$12.8 million in school lunch fees, \$8.2 million in grant refunds, \$28 million in extended use fees charged to organizations that rent space in school buildings on nights and weekends, and \$7 million in sundries such as UFT fees. (See Appendix A).

Council Initiatives

The City Council added \$32.6 million to the City's Fiscal 2016 Budget to fund a variety of education initiatives, which are listed in the chart below. Fiscal 2016 Council additions included \$2.4 million for a new Restorative Justice Program across the City. This allocation supports a pilot program across 25 schools to change the school culture and approach to disciplinary policies. The Council also funded a new position at DOE, the LGBT Students' Liaison, at \$100,000. This allowed the DOE to hire a dedicated staff person to specifically address the needs of LGBT youth. Other highlights include: an increase of \$595,000 for Dropout Prevention as compared to the previous year, \$1.55 million for MS Extra, an increase of \$225,000 for Community Schools and an additional \$125,000 for Small School Athletic League as compared to the Fiscal 2015 Budget.

Chart 3: Fiscal 2016 Council Initiatives	
<i>Dollars in Thousands</i>	
General Education Instruction & School Leadership	
Bridge to Tomorrow	\$1,150
CHAMPS	125
MS Extra	1,550
NASA Globe Program	130
Restorative Justice Program	2,400
Small Schools Athletic League	1,000
STEM Teacher's College	250
Teacher's Choice	9,685
Subtotal	\$16,290

Community Schools	475
Dropout Prevention and Intervention	1,595
Executive Leadership	450
LGBT Students' Liaison	200
MOUSE	275
Urban Advantage	\$3,500
Subtotal	\$16,290
TOTAL	\$32,580

- **Bridge to Tomorrow.** The Council provided \$1.15 million to support DOE staff at Workforce One Centers to provide GED assessments, preparation and testing to clients. The Council provided the same level of support the previous year.
- **CHAMPS.** The Council provided \$125,000 to improve fitness levels and the overall health of middle school students by increasing opportunities to engage in physical activity. CHAMPS promotes health-related fitness through before and after school sports programs in over 200 schools. The Council funded this initiative at the same level as last year.
- **Chess in Schools.** This allocation of \$400,000 for Chess in the Schools offers chess classes during the school day, school chess clubs and the Project Chess initiative that

trains teachers to teach chess and launch chess education programs. This initiative was funded at the same level last year.

- **Child Mind Institute.** The Council provided \$500,000 to support the Child Mind Institute's Teacher-Child Interaction Training program. The program aims to provide teachers in public schools with a specific set of skills so they can better manage disruptive behaviors in the classroom.
- **Community Schools.** The Council provided \$470,000, which supports a restoration of \$250,000 and an enhancement of \$220,000 for Community Schools. Community partners work with participating schools to create strategies that tie specific health and social services directly to the schools' students and their families and communities.
- **Dropout Prevention and Intervention Initiative.** The Council provided \$1.6 billion to support dropout prevention and intervention programs. Contracted providers offer a range of student supports, school restructuring and professional development services.
- **Executive Leadership Institute.** The Council provided \$450,000 to maintain funding for the Executive Leadership Institute operated by the Council of School Supervisors and Administrators, which maintains five borough learning centers and provides professional development and training to principals and other school leadership staff.
- **LGBT Students Liaison.** The Council provided \$100,000 to support the DOE in hiring a dedicated staff person to be the LGBT liaison for schools to specifically address the needs of LGBT youth. This staff position also helps the DOE address the intersectionality of race, sexual orientation and gender identity. Additionally, the Council provided \$100,000 to support professional development for public school teachers.
- **MOUSE.** The Council provided \$275,000 for Making Opportunities for Upgrading Schools and Education (MOUSE) to provide training for middle school and high school students in technology, digital media, and computer science. This is the same level of funding the Council provided the previous year.
- **MS Extra.** The Council provided \$1.55 million to support extended school day in 20 middle schools, which includes intense literacy training for high needs students.
- **NASA Globe Program.** The Council provided \$130,000 to support NASA's Global Learning Observations to Benefit the Environment (GLOBE) program in 22 schools across New York City.
- **Restorative Justice Program.** This allocation of \$2.4 million supports the implementation of a pilot restorative justice program in 25 schools in order to change their culture and approach to school disciplinary policies.
- **Small Schools Athletic League.** This allocation of \$1 million represents a restoration of \$875,000 and an enhancement of \$125,000 to support funding for sports in public high schools in the Small Schools Athletic League.
- **STEM Teachers College.** The Council provided \$250,000 to support a pilot program to be conducted by Teachers College, which focuses on 10 schools, five elementary and

five middle schools. This initiative serves low-income students to help the schools better incorporate technology in the classroom.

- **Teacher's Choice.** The Council provided approximately \$9.69 million, which represents a \$6 million restoration and a \$3.6 million enhancement, to reimburse teachers and other school staff for purchases of supplies used for student instruction.
- **Urban Advantage.** The Council provided \$3.5 million, which represents a \$2.5 million restoration and a \$1 million enhancement to the Urban Advantage Science Education program, a collaboration of seven science oriented institutions, to provide professional development for middle school science teachers, school and class-based resources and assist middle school students in completing state-mandated exit projects and requirements.

Financial Plan Summary

The DOE's expense budget is organized by unit of appropriation (U/A), each of which represents a function of the Department and is listed below. Following the list, the Financial Plan Summary displays the DOE's budget by U/A. In the list below, direct service areas, meaning functions and services by DOE employees, the related PS and OTPS units of appropriation are paired. In the non-direct service areas, meaning functions that the DOE contracts out to private providers and programmatic funding allocations that flow through the DOE's budget to non-public schools and service providers, only OTPS units of appropriation exist.

1. General Instruction and School Leadership (U/As 401 and 402)
2. Special Education Instruction and School Leadership (U/As 403 and 404)
3. Charter Schools (U/A 406)
4. Universal Pre-Kindergarten (U/As 407 and 408)
5. School Support Organization (U/As 415 and 416)
6. Citywide Special Education Instruction and School Leadership (U/As 422 and 423)
7. Special Education Instructional Support (U/As 423 and 424)
8. School Facilities (U/As 435 and 436)
9. Pupil Transportation (U/A 438)
10. School Food Services (U/As 439 and 440)
11. School Safety (U/A 442)
12. Energy and Leases (U/A 444)
13. Central Administration (U/As 453 and 454)
14. Fringe Benefits (U/A 461)
15. Special Education Pre-Kindergarten Contract (U/A 470)
16. Contract School/Forster Care (U/A 472)
17. Non-Public School and FIT (U/A 474)
18. Categorical Programs (U/As 481 and 482)

Since June, the Fiscal 2017 budget has grown by \$971.5 million, which is reflected in the chart below. This growth is comprised of increased funding at the City, State and federal levels. The November Plan had minimal changes to the DOE's budget and added

approximately \$23 million to the now proposed \$22.9 billion budget. Due to that fact, the increased funding is largely reflected in the Fiscal 2017 Preliminary Plan.

*The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.

As outlined in the chart above, the largest growth is in U/A 401, General Instruction and School Leadership PS. Funding under this U/A would support many of the new needs proposed in the Fiscal 2017 Preliminary Plan including Universal Literacy, College Visits and Access, Algebra for All, AP for All, Single Shepherd, and many of the restorative practices programming happening directly in schools. U/A 401 is approximately 26 percent of the entire DOE budget. The second largest growth proposed for the next fiscal year can be seen in payments to charter schools and is projected to increase by \$200.1 million, making the total payments to charter schools approximately \$1.7 billion. Charter school payments comprise seven percent of the DOE's budget. A further increase in payments to charter schools for Fiscal 2017 is expected if the State raises charter school tuition rates, as proposed by the Governor. Another large area of growth is for U/A 461, Fringe Benefits, with an increase of \$193.9 million. The total budget for fringe benefits in Fiscal 2017 is projected to be \$3.3 billion, or 14 percent of the DOE's total budget.

Part of the growth in U/A 401 and U/A 461 is also due to an increase in headcount, which is reflected in the chart below. The DOE projects to increase full-time, pedagogical positions

by 529 and full-time, non-pedagogical by 210 positions for a total headcount increase of 739. A total of 586 positions were included in the Fiscal 2017 Preliminary Plan and the remainder were added under previous actions.

**The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.*

Contract Budget

The New York City Charter mandates the preparation of a Contract Budget to identify expenditures for contractual services, which are defined as any technical, consultant or personal service provided to the City by means of a contract. The Contract Budget is actually a subset of the OTPS portion of the City's Expense Budget and sets forth anticipated contractual spending for each agency by unit of appropriation, broken down by object codes, number of contracts per category and the corresponding dollar value anticipated to be expended in each category. The City's Contract Budget, as proposed, totals \$13.16 billion in Fiscal 2017.

The DOE historically has one of the largest agency contract budgets and in Fiscal 2017 it would make up 42 percent of the City's total \$13.16 billion Contract Budget. The Fiscal 2017 Preliminary Contract Budget includes a total of \$5.6 billion for the DOE's 5,601 contracts. This is 24 percent of DOE's Fiscal 2017 Preliminary Budget.

The greatest areas of contractual spending are for Contract Schools and Pupil Transportation. Contract Schools are projected to total \$3.1 billion in Fiscal 2017 and another \$1.2 billion is for Pupil Transportation, combined totaling 18 percent of the DOE's total budget. The category Contract Schools includes payments to charter schools, which total \$1.7 billion in Fiscal 2017. The contract budget should be amended to include a new category specifically for charter schools since they comprise such a large portion of contract school spending at 54 percent. Another major area of contractual spending is for Direct Education Services at \$717.5 million. Additional contractual categories and projected spending is outlined in the table below.

Chart 6: DOE Preliminary Contract Budget

School Budgets

The City's over 1,800 public schools each have an individual school budget that is funded by the Department of Education through a variety of allocation formulas and pass-through funding. Most of the funding that is allocated to schools to support operations is budgeted centrally within three program areas:

- General Education Instruction & School Leadership (U/As 401 & 402);
- Special Education Instruction & School Leadership (U/As 403 & 404); and
- Categorical Programs (U/As 481 & 482).

Although not all of the money budgeted in these U/As funds schools' budgets, school budgets will generally be impacted by actions in the corresponding program areas. One major area of funding that is no longer budgeted in these U/As is for UPK, which now has two new U/As 407 and 408. Therefore, funding for schools to support UPK is not described here under School Budgets and is instead in an upcoming section on U/As 407 and 408 Universal Pre-Kindergarten.

This section on school budgets provides an overview of the parts of the DOE's budget that fund public schools' budgets and support school-based jobs, and then each of the program areas will be examined in more detail.

The City's budget does not include information on how much money any individual school receives, and it does not show how many employees any particular school has. The budget information is citywide. More detailed school-level budgetary information is made available by the DOE on its website at <http://schools.nyc.gov>.

*The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.

The Fiscal 2017 Preliminary Budget includes \$10.7 billion for school budgets, a \$501 million increase when compared to the Fiscal 2016 Adopted Budget. Funding for school budgets is 47 percent of the entire DOE budget. The total growth for school budgets includes an increase of \$479.8 million in PS and \$21.2 million in OTPS. The majority of the PS increase is due to a \$485 million increase for full-time salaried pedagogical staff. The OTPS increase is primarily due to contractual services. Chart 7 above also shows an increase of 844 full-time pedagogues and a decrease of 83 non-pedagogues, of which 586 are new positions proposed by the Administration in the Fiscal 2017 Preliminary Plan.

Many of the Administration's priorities and new needs are funded under these U/As, which provide services directly in schools. For example, under U/A 401 Algebra for All is funded

at \$10.1 million with a headcount increase of nine positions in order to provide this program in schools. AP for All is funded at \$7.3 million, which would go directly into a school's budget, with a headcount increase of 134 positions in order to expand AP courses in high schools. U/A 401 College Visits and Access is funded at \$1.2 million with no headcount added, meaning this program will be provided by current staff. The Single Shepherd program has a headcount increase of 130 positions and provided \$7.7 million in U/A 401 for schools. Universal Literacy is funded at \$1.2 million with a headcount increase of 11 positions. The School Climate Initiative would also provide funding directly to schools, however, Safe and Supportive Opportunity Program Expanded (SSOPE) is the only school climate initiative with a headcount increase, which totals 28 positions. The program itself is funded at \$2.5 million under U/A 401. Renewal Professional Development provided \$199,759 to schools, Restorative Practices for D18 and Warning Card Schools would provide \$128,319, and Restorative Practices Internal Capacity Building is funded at \$408,192. Fair Student Funding is also under U/A 401 with an increase of \$108.5 million. The State mandated additional funding for ELLs is provided here under the program 6th Period Coverage at \$1.3 million. In total, the Fiscal 2017 Preliminary Plan includes approximately \$140 million directly to schools to support new needs.

These programs are also funded through U/A 402 in order to support the direct service of providing the program. Algebra for All is funded at \$9.7 million, AP for All at \$1.5 million, College Visits and Access at \$3.7 million, and Single Shepherd at \$2.6 million. Restorative Practices for D18 and Warning Card Schools are funded at \$600,809, Restorative Practices Internal Capacity Building at \$137,944, and SSOPE at \$2.3 million. School budget funding under U/A 402 totals \$25.4 million in the Fiscal 2017 Preliminary Plan to support new needs.

School budget funding under U/A 403 provides support for 6th Period Coverage at \$190,984 and Fair Student Funding at \$16.2 million. The total school budget funding to support new needs in U/A 403 is \$16.4 million in the Preliminary Plan.

Performance Indicators	Actual			Target		4-Month Actual

Source: Fiscal 2016 Preliminary Mayor's Management Report

Chart 8 above shows that teacher headcount has consistently increased since Fiscal 2013. In addition to the statistics included in the PMMR, pursuant to a term and condition in the Fiscal 2016 Adopted Budget, the DOE is required to provide the Council with quarterly reports, which are available at http://council.nyc.gov/html/budget/fy16_documents.shtml,

on the actual headcount funded through U/As 401, 403 and 481. As of December 2016, DOE schools employed a total of 103,641 full and part-time staff as reflected in U/As.

Source: Fiscal 2016 Preliminary Mayor's Management Report

The class sizes in any given school results from a combination of factors. The amount of funding available to schools to hire teachers, the number of classrooms in a school, plus choices made by school leaders determines the number of students in each class. The DOE has been criticized over its inability to meet capacity need for its schools, which has resulted in persistent overutilization and overcrowding in many school buildings. Limited school funding has continually kept classes overly large. Chart 9 illustrates several performance statistics from the Fiscal 2016 Preliminary Mayor's Management Report (PMMR), including average class size and the percentage of schools that exceed capacity. Studies show that large class sizes are negatively correlated with student academic performance. Chart 9 shows that class sizes have remained high. The Council expects that with additional funding schools will be able to reverse this trend by adding teachers and reducing class sizes.

General Education Instruction & School Leadership

The first two units of appropriation in the DOE's budget support the core school programs – general education instruction and school leadership. General Education Instruction and School Leadership (General Education) is a vast category that encompasses classroom teachers, substitute teachers, coaches, core subject area teachers, school administrators, assistant principals, deans, guidance counselors, school aids, text books, copying, teaching artists and all the other many personnel and supplies that schools use.

As Chart 10 indicates, this area of spending is very large, amounting to 30 percent of the DOE's \$22.9 billion Fiscal 2017 projected expense budget. Most of school spending is for

full-time pedagogical staff salaries. The budget shows that schools would employ 63,879 full-time pedagogical staff next year and 2,512 non-pedagogical staff in general education.

*The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.

Chart 10 illustrates that funding for General Education is projected to increase by \$378.3 million in Fiscal 2017 when compared to the Fiscal Year 2016 Adopted Budget. The growth is largely due to an increase in spending in U/A 401, PS General Instruction and School Leadership. Most of this growth is attributed to the increase in Fair Student Funding (FSF), which would increase school budgets for all schools operating under 87 percent of funding. The total FSF increase for general education in the Fiscal 2017 Preliminary Plan is projected to be \$108.5 million.

Special Education Instruction & School Leadership

The Special Education Instruction and School Leadership (Special Education Instruction) budget, U/As 403 and 404, supports the special education programs provided by schools. The largest of these programs is integrated co-teaching (ICT). ICT classes consist of one general education teacher and one special education teacher, providing a reduced student/teacher ratio while ensuring that students with disabilities are educated alongside age-appropriate peers in a general education classroom. Special education teachers, aids, administrators, supplies, and services purchased to support special education are paid for by schools and funded through U/As 403 and 404. Almost all of the funding budgeted in these U/As is allocated directly to schools. Some of it, however, supports centrally administered programs and services that support the work of schools. Examples of such include professional development courses for school staff and some student assessment

tools. Special Education Instruction totals six percent of the Fiscal 2017 Preliminary Budget.

*The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.

Funding for Special Education Instruction is projected to increase by \$85.1 million in Fiscal 2017 when compared to the Fiscal 2016 Adopted Budget. The entire growth is in PS for full-time pedagogical positions with headcount increasing by 500 positions. This increase was scheduled in a prior plan and is not associated with any action in the Preliminary Budget. As per the Fiscal 2016 Adopted Budget term and condition, the Department provides quarterly reports to the Council on staff headcount. According to the FY 2016 Second Quarterly Headcount Report, the DOE had a total staff headcount of 24,855 in U/A 403 as of January 28th, 2016.

Categorical Programs

An important component of every school's budget is the categorical aids that support particular student programs and services. U/As 481 and 482 in the Department of Education's budget include most, but not all, categorical aids. Most of the funds budgeted in U/As 481 and 482 go directly to public schools, while some of it supports contractual programs at non-public schools. Since most of the categorical aids flow into public school budgets, they are included here.

These units of appropriation provide federal and State funds that are allocated for specific purposes, as well as grants and awards from non-public agencies and institutions. The largest federal program, Title I, provides schools with resources to support supplemental instructional services such as remedial reading and math programs. The DOE is scheduled

to receive \$679.1 million in Title I funding in Fiscal 2017. Title IIA funds support professional development activities for teachers and other staff at \$108 million. Other school programs for which the Department receives federal categorical aids include funding for the education of homeless children, breakfast and lunch programs. State categorical aids include, but are not limited to, employment preparation education and bilingual education.

TOTAL	10,741	10,781	7,231	7,231	7,181	(50)

*The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.

As shown in Chart 12, funding for Categorical Programs would increase by \$25.5 million in Fiscal 2017 when compared to Fiscal 2016 at adoption. PS spending on full-time pedagogical positions is projected to increase by \$28.9 million. This is offset by a decrease in all other Personal Services, as well as a decrease in OTPS Contractual Services. The headcount adjustments for non-pedagogical staff reflect this decrease as the number of non-pedagogical positions decreases by 50. The headcount drop shown between Fiscal 2015 and Fiscal 2016 is largely due to the creation of a new unit of appropriation for universal pre-kindergarten. Prior to Fiscal 2016, most pre-kindergarten spending could be found under U/As 481 and 482. Additionally, through Fiscal 2015, DOE's staff was funded with state pre-kindergarten funding under this U/A. The Universal Pre-Kindergarten budget is now in U/As 407 and 408.

Citywide Special Education & Special Education Instructional Support

Funds budgeted in Citywide Special Education Instruction and School Leadership, U/As 421 and 422, provide for direct citywide special education instruction and school supervision for severely handicapped children in self-contained classrooms and home and hospital instruction, and for instructional support services and related services. District 75 schools are funded here. U/As 423 and 424, Special Education Instructional Support, contains funds for centrally-managed special education related services such as

occupational therapy, physical therapy and nurses. The DOE uses both employees and contractual providers to deliver mandated services to students. Funding budgeted here also pays for evaluations of students performed by school-based support teams.

*The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.

The total citywide special education budget is projected to be \$1.6 billion in Fiscal 2017, of which \$1 billion would be spent on PS and the direct instruction of students and \$21 million would be spent on OTPS. This is seven percent of the Fiscal 2017 Preliminary Budget for DOE. Additionally, \$537.4 million would be spent on special education support. The total citywide special education budget is projected to increase by almost \$91.5 million when compared to the Fiscal 2016 Adopted Budget. Some of this increase is reflected in the

change in headcount, which increases the full-time non-pedagogical staff by seven positions.

Chart 14: Special Education Enrollment

Chart 14 shows that the number of students receiving special education services has increased, which corresponds with the increased budget for these services and the increase in headcount. The chart also shows the increase of school-aged students, both in public and private schools, who are enrolled in special education services. The number of students enrolled in special education pre-schools increased in non-public schools, however, it decreased in public schools. Additionally, both the number of students recommended for and those no longer in need of special education increased. Pursuant with Local Law 27 of 2015, the DOE provides to the Council additional information regarding students receiving special education services. According to the report, 95 percent of students with Individual Education Programs (IEPs) were either fully receiving or partially receiving the specialized instructional services they require, 60 percent of students are fully receiving services, and 35 percent are partially receiving services. It is important to note that according to the DOE, they believe that the percentage of students reported fully receiving services is understated, while those partially receiving is overstated. According to the DOE, these reporting issues are due to problems with their data tracking system.

Charter School

Charter schools are privately operated schools that run under a public charter issued by the DOE, the State Education Department, or the State University of New York. They are considered public schools, but they are funded through the DOE's contractual services budget. As per the Fiscal 2016 Adopted Budget term and condition, the Department provides semi-annual reports to the Council on charter schools. According to this report, as of December 2015, there were 209 charter schools with all but four located in New York City. These schools are serving a total of 93,910 students and 12,908 of them are in special education. The City pays charter schools a per pupil rate that is set by the State. In the 2016-2017 school year the rate is \$13,877 per general education student and more for special education students, although this rate varies and depends on the special education student's need.

**The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.*

Funding for charter schools is projected to total \$1.7 billion in Fiscal 2017, a \$200.1 million increase when compared to the Fiscal 2016 Adopted Budget. The Administration only includes growth in existing charter schools in its Preliminary Budget projection and does not show projections for new charter schools. Therefore, we expect to see a higher spending projection for charter schools in the City's Executive Budget when the costs of newly opening charter schools are factored in.

Universal Pre-Kindergarten

At the request of the Council, the Department of Education added two new U/As for Universal Pre-Kindergarten (UPK) beginning in Fiscal 2016. U/As 407 and 408 include the PS and OTPS spending for UPK to provide transparency for the spending of this program. UPK is now available for all four year olds in New York City in the following types of settings: 1)DOE Pre-K Centers: programs exclusively for pre-k students led and operated by the DOE; 2) DOE District Schools: programs located within public elementary schools and overseen by the school's principal; 3) NYC Early Education Centers: community-based organizations that contract with the DOE to provide pre-k; and 4) Charter Schools: programs that operate under state-authorized charter.⁵

**The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.*

Chart 16 above demonstrates spending on UPK since the Adopted 2016 budget. Prior to Fiscal 2016 UPK spending was budgeted in several different U/As. Funding for UPK is projected to decrease by \$34.9 million when comparing the Fiscal 2016 Adopted Budget and the Fiscal 2017 Preliminary Budget. This is reflected by a decrease in headcount and spending for full-time pedagogical staff. There is an increase in spending on contractual services by \$807,000; however that is offset by a decrease in property, equipment, supplies and materials. The total UPK budget for the Fiscal 2017 Preliminary Plan is \$774 million. It is important to note that enrollment for UPK is not decreasing even though funding has declined. As of October 2015, there were 71,337 students enrolled in UPK compared to 66,000⁶ in Fiscal 2015. According to the Administration, UPK funding was higher in previous years due to increased costs associated with starting the program. For example, there were additional costs in the initial years of the UPK expansion in order to outfit centers. Now that programs are up and running, that additional funding is no longer needed and funding to support the program has largely remained flat.

School Support Organizations

Funding budgeted for School Support enables the DOE to provide field-based administrative and operational support to schools. This allocation also supports the community school superintendents, the community district education councils, family engagement staff, student placement offices, and the five integrated service centers that provide business, special education and operational support to schools.

⁶ Number of enrolled students in Universal Pre-Kindergarten is from the FY 2015 Year-End Monitor's Meeting, December 7, 2015.

*The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.

Funding for school support would increase by \$22.5 million in Fiscal 2017 when compared to the Fiscal 2016 Adopted Budget. The total School Support budget is projected to be \$308.7 million with \$276.6 million for PS and \$32 million for OTPS. The increase is due to several new needs, which are funded here. Universal Literacy has a headcount increase of 103 positions under U/A 415 and would be funded at \$8.6 million. Single Shepherd has an increase of four positions and projected funding is \$500,000. College Visits and Access is funded under U/A 415 at \$200,000 and the restorative practice programs are funded at \$100,000. The DOE has also proposed hiring four attorneys at \$378,190 PS and \$148,437 OPTS. These attorneys would be hired in the Office of Special Investigations in order to expedite investigations of allegations of improper and unlawful behavior in schools.

Contract Schools, Carter Cases and Foster Care

Funds for Contract Schools, Carter Cases, Foster Care and Blind and Deaf schools are budgeted in U/A 472. Contract schools are private schools authorized by the State to provide special education instructional services and related therapies to children with conditions or disabilities who cannot be appropriately served by the City's public schools. Carter cases refer to lawsuits in which the DOE is ordered by a court to reimburse parents for tuition costs at any private school after showing that the public school placement is inadequate. This program area also includes funding to pay for schooling provided to foster care children placed outside the New York City school district. Finally, funds for blind and deaf students' instruction flow through this U/A.

**The difference of Fiscal 2015 Adopted Budget compared to Fiscal 2016 Preliminary Budget.*

Chart 18 provides further insight into U/A 472. The Fiscal 2017 Preliminary Budget is \$677.4 million, an increase of \$24.9 million when compared to the Fiscal 2016 Adopted Budget. The increase in funding results from the combination of a \$12.9 million increase in funding for in-state contract schools and a \$12 million increase in funding for Carter cases.

Special Education Pre-Kindergarten

The DOE provides special education instructional services and related therapeutic services to pre-kindergarten aged children through contracts with non-public schools and private providers. None of the services funded in this program area, U/A 470, are directly provided by the DOE. The DOE also provides door-to-door bus transportation for these children.

Chart 19: UAs 470 - Special Education Pre-Kindergarten*Dollars in Thousands*

	Actual	Actual	Adopted	Preliminary Plan		*Difference
	2014	2015	2016	2016	2017	2016 - 2017
Spending						
Other Than Personal Services Contracts						
Tuition	\$441,145	\$463,649	\$484,178	\$484,178	\$523,183	\$39,004
Professional Direct Education Services	300,295	295,349	307,439	246,532	212,770	(94,669)
Pupil Transportation	83,370	85,401	118,245	118,245	118,245	0
TOTAL	\$824,810	\$844,399	\$909,862	\$848,955	\$854,198	(\$55,664)

**The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.*

As demonstrated in Chart 19, Special Education Pre-Kindergarten is comprised of three service areas: tuition, professional direct education services, and transportation. Tuition is the largest spending area and would total \$523.2 million in Fiscal 2017. Professional services are projected to be \$212.8 million and \$118.2 million would be allocated to pupil transportation.

Overall, there is a net decrease in spending for special education pre-kindergarten when comparing the Fiscal 2017 Preliminary Budget to the Fiscal 2016 Adopted Budget. The \$39 million increase in tuition is offset by a \$94.7 million decrease on professional services. The decrease would not actually result in a loss in special education pre-kindergarten services, but in fact is due to a re-estimate by OMB, which reduces the baseline by \$76 million.

Pupil Transportation

Funding budgeted in U/A 438 supports the safe, reliable and efficient transportation service for the students of New York City. Over 600,000 public and non-public school students take advantage of DOE-provided transportation services each school day. Services include mandated door-to-door bus transportation for special education students and stop-to-school yellow bus transportation for qualifying elementary school students. Older students receive free or half-fare passes for public bus and train lines, which include New York City Transit (MTA) and Staten Island Rapid Transit (SIRT). Funding included in U/A 438 does not include all of the DOE's spending on student transportation. For example, additional student transportation services are budgeted in U/A 470, Special Education Pre-Kindergarten. Administrative costs associated with transportation, including the Office of Pupil Transportation, are budgeted in the Central Administration program area, U/As 453 and 454. Spending for pupil transportation is a large part of the DOE's budget, comprising four percent of the proposed Fiscal 2017 Preliminary Plan.

Chart 20: UA 438 - Pupil Transportation

**The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.*

As shown in Chart 20, the pupil transportation budget would decrease by \$20.5 million for a total budget of \$1.1 billion in Fiscal 2017. There are several reasons why this occurs, including adjustments in State and federal funding. Overall, Special Education buses have an increase of \$24.7 million, which is offset by a decrease in General Education Buses. The MTA subsidy is a cost savings for the Department, as they have been able to pre-pay the MTA for MetroCards in Fiscal 2015 and 2016. The DOE was able to pre-pay the MTA in those fiscal years due to reimbursements from FEMA and other state adjustments to the busing budget.

Navman Expansion is a new need funded under U/A 430. The DOE proposed \$2.1 million for a pilot program which would outfit some buses with a tracking device so that parents would have the ability to track their child's school bus with GPS technology.

School Food Services

The Department's Office of School Food runs DOE's breakfast and lunch programs and is supported with funding allocated to U/As 439 and 440. According to the DOE, school food works to promote healthy food choices by students and maintains high nutritional

standards while offering delicious, healthy and satisfying menu choices. School breakfast is served at every school before school starts and is free and available to any student. Lunch is served in all schools and is priced according to family income based on federal income eligibility guidelines. However, some middle schools now have universal free lunch, which is described in more detail below. School lunch is supported by the federal government. Students whose families' incomes exceed the federal cut-off may purchase lunch for \$1.75. Menus for lunch and breakfast are posted in all schools, and are available on-line at <http://www.opt-osfns.org/OSFNS/resources/SFMenuSystem/public1/default.aspx>.

*The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.

Spending for school food services is projected to total \$518.1 million in Fiscal 2017, which is a \$32.1 million increase when compared to the Fiscal 2016 Adopted Budget. Chart 21 above shows the growth is split between \$223 million for PS and \$295.1 million for OTPS in U/As 439 & 440.

This is the second school year with universal free lunch in stand-alone middle schools in New York City. As a result of expanded free lunch, middle school student participation in the lunch program increased by almost ten percent in the first six months of the 2014-2015 school year when this program was first implemented, when compared to the same period the previous year.⁷ Due to the success of the first year of universal free lunch, the Council requested that the Administration expand this program and provide universal free lunch for all students, however the Administration was not supportive of this and instead began

⁷Building on Success of Universal Free Lunch in Middle Schools: Mayor de Blasio Should Fund Expansion to All New York City Public School Student.

http://media.wix.com/ugd/fce5d8_3fac78f8fe6d4af89bb2850b4d2869f5.pdf

to expand the breakfast in the classroom (BIC) program. DOE has committed to serving breakfast in the classroom in all stand-alone elementary schools, to be phased-in over four years. In schools with BIC the Department has eliminated hot breakfast service in the cafeterias, which had previously been available to all students prior to the start of the regular school day. The Administration has proposed additional funding to expand the BIC program in the Fiscal 2017 Preliminary Plan. Facilities Work for Cafeteria Kitchens is funded under U/A 400 at \$1.6 million to expand BIC to 750 classrooms. The DOE is currently providing BIC in 450 classrooms.

As shown in Chart 22 below, the PMMR for Fiscal 2016 shows that from Fiscal 2013 to 2015 there was a decline in the average number of school lunches served daily, while the number of breakfasts served slightly increased. It is important to note that the PMMR does not provide information on current year trends or any information on the initiative by the Council.

Performance Indicators	Actual			Target		4-Month Actual	
	FY13	FY14	FY15	FY16	FY17	FY15	FY16
Average lunches served daily	625,231	614,698	619,718	*	*	N/A	N/A
Average breakfasts served daily	221,519	224,377	226,572	*	*	N/A	N/A

Source: Fiscal 2016 Preliminary Mayor's Management Report

In order to be more transparent about school food the PMMR and MMR should report on additional metrics and costs associated with school food. For example, the PMMR should be improved to include reports on costs such as average cost per breakfast and average cost per lunch in order to paint a more complete picture of spending associated with providing schools meals. Additionally, the reports should include information to demonstrate how BIC and the universal fee lunch programs are performing.

Central Administration

U/As 453 and 454 consist of funding for the DOE's administrative offices. Functions include portfolio planning, operations, finance and school budget planning, and enrollment. Additional central office functions include school safety, youth development, special investigations, intergovernmental affairs, equal opportunity, public information, community engagement, legal services and labor relations.

*The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.

Spending for Central Administration is projected to increase by \$23.3 million in Fiscal 2017 when compared to the Fiscal 2016 Adopted Budget. The projection includes an \$18.2 million increase in PS and \$5.1 million in OTPS, for a total of \$362.2 million in Fiscal 2017. Part of this increase is due to an increase in full-time, non-pedagogical positions by 155: three positions for AP for All; 24 for College Visits and Access; two communications positions; two positions for Data Tracking & Sharing for renewal schools; 35 positions for DIIT Insourcing; six positions for District-Charter Collaboration; 18 positions for additional need in the Division of Contracts; two doctors for renewal schools; 31 positions for operations support; and one Transportation Coordinator for students in temporary housing.

Fringe Benefits

The Department of Education, unlike other City agencies, maintains units of appropriation for fringe benefits, which include social security, health insurance, payments to welfare funds, annuity contributions, workers compensation and unemployment benefits, and a reserve to fund costs associated with collective bargaining agreements.

Chart 24: UA 461 - Fringe Benefits*Dollars in Thousands*

*The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.

The Fringe Benefits total budget is \$3.2 billion in Fiscal 2017, an increase of \$193.9 million when compared to the Fiscal 2016 Adopted Budget. Fringe benefits constitute 13 percent of DOE's total budget for Fiscal 2017.

School Facilities

School Facilities is comprised of U/As 435 and 436. Funding for this program area supports the DOE's building maintenance and custodial operations. The Division of School Facilities also completes some capital projects that are funded by the School Construction Authority.

**The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.*

Funding for improvements to school cafeterias is budgeted under U/A 436. The DOE has included \$1.6 million for Fiscal 2017 in order to improve a total of 450 cafeterias. The remainder of funding included for facilities work for cafeterias is budgeted under U/A 440 School Food Services. The DOE has also included funding for UPK sites in U/A 435 by proposing \$1.6 million to fund custodial services in stand-alone UPK centers.

Energy and Leases

Funding for heat, light, power, and fuel oil, as well as leases is scheduled in U/A 444. As you can see in the chart below, there are minimal changes proposed for this area between the Fiscal 2016 Adopted Budget and the Fiscal 2017 Preliminary Budget with a total increase of \$12,000.

School Safety

The Department of Education pays the New York Police Department (NYPD) via an intra-city payment to provide security services at all public schools. The security personnel who work in the schools are employees of the NYPD, not the DOE. A Memorandum of Understanding between the two departments outlines the NYPD's role in securing the schools.

Chart 27: UA 442 - School Safety						
<i>Dollars in Thousands</i>

**The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.*

Funding for School Safety is \$347 million in the Fiscal 2017 Preliminary Plan, an increase of \$11.3 million from the Fiscal 2016 Adopted Budget. A total of \$249.3 million goes directly to the NYPD through an intra-city payment. Part of this increase to the NYPD is to fund a new need, Think Kids, which is de-escalation training for school safety agents. The Fiscal 2017 Preliminary Plan reflects \$71,000 in intra-city funds from DOE in the Fiscal 2016 PS budget and \$82,000 in Fiscal 2017 PS budget to fund this training program. The NYPD currently has a budget for 5,147 school safety agents.

Data from the Fiscal 2016 PMMR shows criminal activity in schools has been trending downward since Fiscal 2013.

Non-Public School and FIT

The DOE passes state aid for textbooks, library books, data processing supplies, and other school supplies to non-public schools. The DOE also provides support for the Fashion Institute of Technology (FIT). Of the \$64.6 million budgeted in U/A 474, \$45.4 million supports FIT. The DOE does not control the amount of funding budgeted in U/A 474, as all of the allocations are formulaic pass-throughs required by the State.

	Actual 2014	Actual 2015	Adopted 2016	Preliminary Plan		*Difference 2016 - 2017
				2016	2017	
Spending						
Other Than Personal Services						
Fashion Institute of Technology	\$45,374	\$45,604	\$45,746	\$45,746	\$45,374	(\$373)
Other Services & Charges	0	0	0	519	0	0
Property & Equipment	22,645	18,002	17,424	17,424	15,296	(2,128)
Supplies & Materials	2,154	1,481	3,520	3,520	3,891	371
TOTAL	\$70,173	\$65,086	\$66,691	\$67,209	\$64,560	(\$2,130)

**The difference of Fiscal 2016 Adopted Budget compared to Fiscal 2017 Preliminary Budget.*

The projected budget for Non-Public Schools and FIT remains relatively unchanged between the Fiscal 2016 Adopted Budget and the Fiscal 2017 Preliminary Budget.

Appendix A: Miscellaneous Revenue

The Department of Education plans to collect approximately \$56 million from various miscellaneous revenue sources in Fiscal 2017. DOE receives funding from school lunch fees, after school usage of DOE buildings, and other refunds.

DOE Miscellaneous Revenue Budget Overview				
<i>Dollars in Thousands</i>				
Revenue Sources	2016	Preliminary Plan		*Difference
	Adopted	2016	2017	2016 - 2017
Educational Service Fees (School Lunch)	\$12,750	\$12,750	\$12,750	\$0
Grant Refunds	8,174	8,174	8,174	0
Rental (Extended use of School Buildings)	28,000	28,000	28,000	0
Sundries (UFT Fees, Misc. Coll/refunds)	7,000	7,000	7,000	0
TOTAL	\$55,924	\$55,924	\$55,924	\$0
