

Background, Methodology

The Department of Education and the School Construction Authority are required to submit a semi-annual report to the Council concerning air conditioning status during the July 1, 2016 and September 30, 2016 time period.

This report provides information detailing which schools have air conditioning installed, which schools do not have air conditioning installed and which schools have had air conditioning installed during the reporting period.

This report consists of one tab:

A/C Status

This tab includes the status regarding if an A/C is installed in a building and a school. This report includes all DOE main school buildings (i.e., it does not include TCUs, attached structures, mini-buildings, athletic fields, outside yards, admin buildings). Buildings that have 1 or more A/C units in the building are defined as buildings with partial AC. Buildings that have HVAC systems are defined as buildings with A/C. Buildings that do not have any A/Cs installed are defined as buildings without A/C. This report does not differentiate the A/C status among schools which are located in the same building.

* Some schools are located in multiple buildings - to ensure that the intended location is refe
