New York City Council Finance Division**

**INTRODUCTION**

Schedule C designates funding for community based not-for-profit and other public service organizations. Expenditure of any funds for each organization identified in Schedule C is contingent upon the satisfactory completion of 1) a detailed initial review process, and 2) all applicable City procurement requirements at the time of contract award. The New York City Council and the Mayor's Office of Contract Services (MOCS) have established the following initial review for each organization:

For all organizations included in Schedule C, the City Council preliminarily reviewed the public purpose for which the funds would be used, and any potential conflicts of interest. In addition, MOCS reviewed the website of and consulted with the State Attorney General's Office to confirm that all groups – including those receiving \$10,000 or less reviewed by the Council – demonstrated compliance with charity registration requirements.

For organizations receiving \$10,000 or less, the City Council also reviewed past performance, compliance with tax laws, corporate status, any reported investigations, audits, inquiries and other relevant information.

In the case of organizations requesting funding in excess of \$10,000, MOCS is overseeing an additional prequalification review process. Through this process, MOCS is reviewing each organization to determine whether it meets integrity requirements, and is in compliance with applicable laws and regulations, including charities registration. MOCS is also reviewing each organization to determine whether the organization is qualified to provide the proposed services, and is reviewing and recertifying the qualifications of organizations that were approved during prior fiscal years. Further, for any organization receiving funding through a fiscal conduit, the fiscal conduit must also be approved by MOCS.

For those organizations identified in Schedule C with an asterisk, either the MOCS or the Council's review process has not yet been completed, the State Attorney General's Office has not yet provided the Council with final verification of the organization's charitable filing status, or the organization is required to attend the MOCS corporate governance, fiscal management and compliance training.

For those organizations identified in Schedule C without an asterisk, the Council has completed its review process and, where applicable, MOCS has preliminarily reviewed or prequalified the organization and any associated fiscal conduit, and the organization has attended the MOCS corporate governance, fiscal management and compliance training, if required to attend.

Further restrictions to ensure the appropriate use of City funds will be incorporated through the City's procurement process.

Our neighborhood has the third highest rate of asthma hospitalization in Manhattan and mature trees will make a large difference in the health of our community. The geographic area is Hell's Kitchen, from 34th Street to 43rd Street from 8th Avenue to 10th Avenue. This program will serve approximately 20,000 residents today. With a relentless focus on the stories of everyday people – those often excluded from the historical record – StoryCorps captures lives that would otherwise be lost to history and reminds us that every story matters and every voice counts. To that end, we have various special initiatives that are designed to record the diverse voices of our home City, including our 9/11 Initiative, in partnership with the September 11 Memorial and Museum in Manhattan, which is dedicated to collecting, sharing and preserving the stories of those who lost loved ones on September 11, 2001. Quinn		VISIONS/Services for the Blind and Visually Impaired	13-1624210		\$10,000	DFTA	VISIONS primarily serves seniors with low income in New York City who are blind or visually impaired, including those with multiple disabilities, frail elders, limited-English speakers and culturally diverse consumers. We are especially interested in conducting more educational and outreach programs in areas of Manhattan that reach underserved seniors. Our interest in increasing these services stem from research that indicates that the majority of the general public do not visit an eye care specialist or have vision testing on a regular basis. This lack of care significantly increases the risk of vision loss due to untreated eye disease. They are not aware of or accessing vision rehabilitation services.
