Agency Overview

The Department of Finance (DOF) collects City revenues, complies with City tax and other revenue laws, values all real property in the City, provides a forum for the public to dispute tax and parking violation liability, and maintains property records.

Expense Budget Highlights

DOF's Fiscal 2010 Executive Budget is 10 percent more than the Fiscal 2009 Adopted Budget. This increase is largely due to the addition of \$20 million in the Treasury Division in order to maintain banking contracts on behalf of the City. Spending will also increase by \$642,664 as a result of the transfer 14 employees from the Office of the Criminal Justice Coordinator to DOF in order improve supervision and oversight of attorneys paid by the City through the Assigned Counsel Program. In addition, DOF's Executive Budget will increase from collective bargaining and lease adjustments totaling over \$5.8 million in Fiscal 2010 and the outyears.

The increase from the Fiscal 2009 Adopted Budget is offset by spending decreases primarily in NYCServ Contract Funding (approximately \$7.2 million), and the Property Records Division (approximately \$2.1 million). The decrease in these funding areas is primarily due to the elimination of OTPS contracts for the maintenance of DOF's NYCServ and ACRIS' systems. As a cost-savings measure, DOF has decided to maintain these systems in-house. The agency plans to hire 34 new employees in the Audit Division and the Financial Information Technology (FIT) program area where they will perform duties that were once performed by contractors. The net savings of this action is estimated to be approximately \$14.4 million in Fiscal 2010. These new hires reflect the agency's programmatic and budgetary shift from outsourcing technology maintenance to hiring in-house personnel to meet the objectives of the agency and yield net savings.

In the Preliminary Budget DOF undertook an across the board personal services reduction that eliminated 17 positions. The savings from these layoffs was approximately \$1.1 million in Fiscal 2010, \$2.4 million in Fiscal 2011, and \$3.6 million in Fiscal 2012 and the out years. The Executive Budget includes further layoffs within DOF that will eliminate 26 positions mostly in the Legal & Adjudications program area which will save the agency \$1.8 million in Fiscal 2010 and the outyears. In total, DOF will layoff 43 positions for a combined savings of \$2.9 million for Fiscal 2010, \$4.2 million in Fiscal 2011, and \$5.4 million in the outyears. Despite these layoffs, DOF's overall headcount has increased by 5 since the Fiscal 2009 Adopted budget due to the hiring of in-house staff in the Audit Division and FIT as well as the transfer of 14 employees from the Office of the Criminal Justice Coordinator.

Administration

This program area includes funding for the Executive Division, the Employee Services Division which provides support services to Finance employees in accordance with City rules and regulation, and the Tax Policy division which provides information and analysis to help decision makers improve the City's tax system and public understanding of the revenue system.

The Administration program budget has an overall headcount increase of 12 since the Preliminary Budget due to the transfer of 14 employees from the Office of the Criminal Justice Coordinator (CJC) to the Department of Finance. The transfer of these 14 employees from DOF to CJC was done in order to improve supervision and oversight of attorneys paid by the City through the Assigned Counsel Program by reviewing court approved invoices and process payments. The added costs of this transfer will be \$642,664 in Fiscal 2010 and the outyears.

Audit

This program area includes funding for the Audit division which provides feedback to taxpayers about the accuracy of their returns.

The overall spending for the Audit unit has increased by approximately \$2.7 million largely due to the planned hiring of 8 employees in the Agency's Data Integrity and Mining Group Initiative. The objectives of this initiative are to improve productivity through data analysis techniques and to yield additional revenue from tax compliance. The agency is projecting that the Mining Group Initiative will yield approximately \$2.5 million in additional revenue in Fiscal 2010 and the out years. In addition, spending has increased due to recent collective bargaining settlements.

Civil Enforcement

This program area includes funding for the Tax Enforcement Division which attempts to ensure that all taxpayers pay their fair share and provides enforcement against those who intentionally do not. This program area also includes funding for the Sheriff's Division which promotes public safety and enforces court orders, including those for the collection of judgment debt.

The Collections program budget increases by over \$5 million primarily due to a multi-agency initiative (Office of Management and Budget, the Environmental Control Board and DOF) which seeks to improve collections on receivables that are owed to the City. Revenue collections in Fiscal 2010 will increase by \$25 million as a result of this initiative with another increase in Fiscal 2011 also anticipated. The initiative will cost \$2.3 million which represents expected payments to a third-party vendor, largely contingent upon attaining the Fiscal 2010 revenue target. The remaining portion of the increase from the Fiscal 2009 Adopted budget is related to collective bargaining adjustments in the OPTS budget.

FIT (Finance Information Technology)

The program area includes funding to ensure the development and delivery of information and technology solutions that aid the Department of Finance in achieving its goals.

Funding for FIT has increased by approximately \$2.8 million since the Fiscal 2009 adopted budget and the headcount has increased by 27. The increase in funding should be more than offset by cost savings in the agency's OTPS budget. The changes to funding in the FIT program area include:

- **ACRIS Consultants:** The DOF will hire 5 information technology specialists to maintain the City's Automated City Register Information System eliminating the need to outsource the maintenance to outside contractors. The net savings from this action will be \$1,084,000 in Fiscal 2010 and the out years.
- **Mainline Software Maintenance:** The DOF will hire 1 person to maintain the mainline software rather than outsourcing the maintenance to outside contractor. The net savings from this action will be \$370,000 in Fiscal 2010 and the out years.
- **NYCServ Consultants:** The DOF will hire 11 information technology specialists to replace consultants in order to maintain the New York City On-Line Payment Services (NYCServ). The net savings from this action will be approximately \$615,000 in Fiscal 2009 and \$1,025,000 in Fiscal 2010 and the out years once the hiring of the specialist is fully implemented.
- **Information Technology Efficiencies.** The DOF will reduce spending by implementing various IT efficiency strategies which includes in-sourcing 10 additional maintenance agreements. The net savings from this action will be \$2,050,000 in Fiscal 2010 and the out years.

Legal and Adjudications

This program area includes funding for the Legal Affairs Division which ensures that laws, rules and regulations are clear, easy to understand and fairly applied to the public, and that DOF has adequate legal support. This program area also funds the Adjudication Division which provides a forum for motorists to challenge their parking or red light tickets.

An additional \$1.9 million has been allocated for this program area since the 2010 Adopted Budget to fund the anticipated costs associated with legislation that expanded the Red Light Camera Program. The recently passed legislation allows for the expansion of red light cameras to 50 additional intersections in New York City and to increase the fine amount from \$50 to \$100. The increased funding is primarily for added personal costs for the Administrative Law Judge Division (ALJ) which will be handling a larger caseload. Since the Fiscal 2009 Adopted Budget the Legal and Adjudications headcount has been reduced by 36 positions. The savings from these layoffs, however, is offset by the increases to the Red Light Camera Program.

NYCSERV Contract Funding

This program area includes funding for Other than Personal Services expenses of the NYC Serv Contract. NYC Serv is the payment and adjudications engine for all debts, collections, licensing, and permits to the City of New York. It enables customers to pay taxes and fines or dispute parking tickets and violations in a single location while improving customer service.

Funding of this program area has decreased by approximately \$7.2 million from the Fiscal 2009 Adopted Budget. This decrease is largely due to DOF's initiative to eliminate contracts in the OTPS budget that were responsible for providing maintenance to the NYC Serv system which will instead be handled by the hiring of new Information Technology specialists.

Property Records

This program area includes funding for the City Register which maintains official records of real and personal property transfers and interests. ACRIS is the Automated City Register Information System, which allows anyone to view property-related ownership documents online going back to 1966. The surveyor, who reports to the City Register, updates and maintains the official tax maps of the City of New York when property owners request the subdivision of large lots into smaller lots (apportionment) or the merging of smaller lots into one large lot (merging).

The Treasury Division increased by approximately \$20 million in the Fiscal 2010 Executive budget due to a change in how DOF maintains banking contracts for the City. Specifically, DOF previously had an arrangement with banks whereby the City maintained funds on deposit that did not earn cash interest but instead earned credits which accrued at rates typically tied to the rates of 3-month treasury bills. The City determined, however, that since 3-month treasury bills are currently at a low given the current economic environment that it is not fiscally prudent to continue this policy since the credits the City is able to earn on its deposits are not sufficient to offset the charges the City must pay for banking services. Therefore the administration has decided to redirect the City's funds on deposit to the Comptroller's Office for investment which is expected to earn enough to offset the \$20 million cost

in banking services. It is expected that the City's investment will earn at least \$20 million thereby making this a cost-neutral initiative.
