

Non-DOE pre-k staff:

For the 2016-17 school year, there were 2,896 lead teachers and 3,369 assistant teachers, for a total of 6,265 staff. This figure includes charter school providers. This number is an estimate based on the number of classrooms and required teacher. We do not fund individual teacher salaries at our community based organizations (NYCEECs), so we do not have more than this estimate.
