Re: Fiscal Year 2024 Budget Terms and Conditions: An annual report including each electric vehicle charging station, status of installation, and location, and frequency of use.

Dear Speaker Adams,

Pursuant to the requirements of Fiscal Year 2024 Budget Terms and Conditions, the New York City Department of Parks & Recreation (the "Department") is required to submit a report to the City Council listing electric vehicle charging stations. Attached please find the report on electric vehicle chargers and frequency of use for August 31, 2022 to August 31, 2023.

This report includes chargers that are in the process of being activated. Also listed in the report are chargers that were in use for part of the reporting period but taken out of service.

With the understanding that unforeseen factors may delay projects slated to be constructed this fiscal year, the Department will use its best efforts to keep these projects on or ahead of schedule.

Should you or your staff have any questions, please do not hesitate to contact me at (212) 360-3431.

Very truly yours,

John Luisi
