Financial Plan Overview

On November 16, 2023, the Office of Management and Budget (OMB) released an update to the City's Financial Plan (November Plan or Plan).¹ The changes introduced in the Plan are primarily the result of funding increases related to the City's response to asylum seekers partially offset by a Program to Eliminate the Gap (PEG) totaling \$3.7 billion across the first two years of the Plan and \$7.5 billion across the entire plan period. In the Plan, the Fiscal 2024 Budget increases to \$110.5 billion, while Fiscal 2025 increases to \$113.7 billion and the gap increases by \$2.0 billion to \$7.1 billion.

Financial Plan Summary

The November Financial Plan includes budgeted spending of \$110.5 billion in Fiscal 2024 and \$113.7 billion in Fiscal 2025. These reflect increases of \$3.4 billion and \$2.8 billion over the Adopted Financial Plan estimates of \$107.1 billion and \$110.9 billion respectively.

The increases are primarily driven by new spending for asylum seeker operations which total \$1.83 billion in Fiscal 2024, and \$9.93 billion across the Plan. As required by the City’s Charter, the Financial Plan remains balanced for the current fiscal year, though budget gaps do remain for the outyears. Actions taken in the November Plan increased the budget gap for Fiscal 2025 by \$2.0 billion, while decreasing the gap in Fiscal 2026 by \$373 million and in Fiscal 2027 by \$1.5 billion. The increased gaps are primarily the product of increased agency spending projections related to asylum seeker operations presented in the November Plan.

Expenditures in the Plan increase at a faster rate than revenue over the plan period, resulting in outyear gaps. The Financial Plan includes \$4.8 billion of prior year resources to balance Fiscal 2024, and approximately \$643 million of prior year resources being used to support Fiscal 2025. Table 2 presents the changes in the November Plan for budgeted revenues and expenditures from Fiscal 2024 to Fiscal 2027.

The Administration increased its revenue projections by roughly \$1.3 billion for Fiscal 2024 and 2025, driven primarily by recognition of higher-than-expected tax revenue collections (see "City Tax Revenues"). The new revenue does little to move the needle on reducing the budget gaps beyond Fiscal 2024, and it should also be noted that the Administration did not release an updated set of tax revenue projections with the November Plan.

The new revenue in Fiscal 2024, taken together with the PEG savings, more than offsets new expenses in that year, leaving a \$643 million surplus to prepay expenses for Fiscal 2025. However, the additional asylum seeker expenses in Fiscal 2025 in the November Plan are so large that even the combined effect of new revenue, savings, and the Fiscal 2024 prepayment is not able to counteract the increase. This set of budgetary circumstances creates a \$7.1 billion gap in the budget for Fiscal 2025.

City Tax Revenues

This section will discuss changes made by the Administration to its tax revenue projections in the November Plan. As part of its charter mandated oversight responsibilities, the City Council also

undertakes a tax revenue forecast which is included in the “Economic and Tax Revenue Forecast” published concurrently with this committee report.

The Administration did not produce a new economic forecast, and only made minor adjustments to its tax revenue forecast, almost all solely focused in Fiscal 2024 to reflect up-to-date collections.

The administration made no changes to tax forecasts after Fiscal 2024, except in two areas: the Property Tax and Audit Revenues. Changes to the property tax estimate reflect changes evident in last May’s final assessment roll which came in higher than expected. The changes to tax audit revenue stem from the PEG initiative to hire more auditors. These two changes represent the only changes the Administration has made to its tax forecasts for Fiscal 2025 through 2027 since the 2023 Executive Financial Plan that was released in April, meaning that they are over 6 months out of date.

The City Council’s Finance Division produced an economic and tax revenue forecast to accompany the November Plan (see Finance Division “Economic and Tax Revenue Forecast”). The Finance Division projects additional tax revenues compared to OMB of \$1.2 billion in Fiscal 2024, \$295 million in Fiscal 2025, \$1.4 billion in Fiscal 2026, and \$2.4 billion in Fiscal 2027. The Finance Division’s forecast reflects a modest decline in tax revenues in Fiscal 2024 compared to the Administration’s two percent decline, the impact of higher interest rates on capital gains, business net income and real estate transactions. Both the Finance Division and OMB expect revenue growth to gradually recover from Fiscal 2025 through 2027.

Budgetary Reserves

In the November Plan, budgetary reserves for Fiscal 2024 total about \$8.2 billion, slightly less than the \$8.3 billion that the City had at this time last year. This decline is the result of a smaller

in-year general reserve (\$1.2 billion versus the \$1.555 billion last year), partially offset by a slightly higher balance in the Retiree's Health Benefit Trust (RHBT).

In addition to budgetary reserves, the City uses the Budget Stabilization Account (BSA) and other pre-payment vehicles to help roll fiscal surpluses forward, which are then drawn down in leaner years. These operate much like budgetary reserves, albeit in a much less transparent manner. Keeping track of this aspect of the budget is difficult in the middle of any one year due to the City's conservative budget practice of under estimating revenues and over estimating expenditures creates the illusion that more of the budget roll is being used than ultimately ends up being used.

For example, at this point last year, the City's financial plan included a Budget Stabilization Account (BSA) of \$705 million (similar to the current \$643 million), but by the end of year the City identified additional resources and ended up with a BSA of approximately \$5.5 billion. Similarly, it is expected that the City will identify additional resources as Fiscal 2024 progresses, much of which will be used to prepay Fiscal 2025 expenses, assisting in closing the \$7.1 billion stated gap in that year. The questions are, how much will the roll be, and will it exceed the \$5.5 billion rolled into Fiscal 2024.

Expenditure Changes

The City's Fiscal 2024 Budget increases from \$107.1 billion to \$110.5 billion in the November Plan. The \$3.4 billion growth in the Fiscal 2024 spending is attributable to various agency new expense needs totaling \$831 million, an additional \$1.83 billion of spending on asylum seeker operations, another \$1.3 billion of net adjustments to agency budgets, and the prepayment of \$643 million of Fiscal 2025 expenses with Fiscal 2024 resources, offset partially by \$1.2 billion PEG savings. Chart 2 summarizes expenditure changes in the Plan by type - new needs, other adjustments, debt service prepayment, and PEG savings.

Chart 2: November Plan Actions by Fiscal Year (\$ in Millions)

Over the four years of the Financial Plan period, new needs total \$1.1 billion, other adjustments \$11.5 billion, PEGs total \$6.7 billion, and debt service prepayment lowers Fiscal 2025 spending

Asylum Seeker Response Costs

A breakdown of the budget for the costs related to the asylum seeker response presented in the November Plan is detailed in Table 5, including a breakdown by fiscal year, agency, and funding source. Additionally, actual spending for Fiscal 2023 and actual spending in Fiscal 2024 through the end of October 2023 are also detailed in Table 5.

The November Plan includes \$4.7 billion in Fiscal 2024 and \$6.1 billion in Fiscal 2025 for costs related to the provision of service to asylum seekers. The largest portion of budgeted funding is allocated to the Department of Social Services (DSS, which encompasses both HRA and DHS), which totals \$6.4 billion across Fiscals 2024 through 2027. The next largest agency budget for asylum seekers is H+H, which includes \$5.0 billion across Fiscals 2024 through 2027. Total funding across Fiscals 2024 and 2027 in the November Plan for all agencies is \$13.84 billion. All funding for Fiscals 2026 and 2027 is budgeted in DHS. Nearly 84 percent of the budget for asylum seeker response efforts in the November Plan is financed by City funds.

* OMB reported actual expenditures in Fiscal 2023 for the Department of Parks and Recreation, for the Department of Youth and Community Development, for the New York City Fire Department, and for the New York City Police Department but there was no budgeted funding for those agencies as of the Fiscal 2024 Adopted Plan.								
** In the actual spending information reported by OMB for Fiscal 2023, spending for DSS was provided in aggregate for HRA and DHS combined.								
*** In actual spending information reported by OMB Fiscal 2024, actual spending for other agencies was reported only in aggregate and includes the Department of Environmental Protection spending outside of the Housing Recovery Office, the Department of Youth and Community Development, the New York City Fire Department, the Department of Parks and Recreations, the Administration for Children's Services, and the New York City Department of Buildings.								

On August 9, 2023, just a few weeks after the Fiscal 2024 Adopted Plan was released, the City revised its cost projections and estimated significant additional funding would be needed for asylum seeker response efforts. The additional funding projected in the August estimate was included in the November Plan. Since the August update, the Administration has not released

revised cost projections for asylum response efforts. Table 6 details the changes in asylum seeker funding from the Fiscal 2024 Adopted Plan to the November Plan. The November Plan includes an additional \$1.8 billion in Fiscal 2024, \$5.1 billion in Fiscal 2025, \$2.0 billion in Fiscal 2026, and \$1.0 billion in Fiscal 2027. This is an increase across the plan of \$9.9 billion.

In Fiscal 2023, actual City expenditures on asylum seeker response efforts totaled \$1.45 billion, or \$6.8 million less than the budgeted amount as of the Fiscal 2024 Adopted Plan. As of October 31, 2023, the City had spent \$1.32 billion in Fiscal 2024 on the asylum seeker response efforts. The City has spent approximately 30 percent of the funding currently budgeted for Fiscal 2024 in the first four months of the year. In Fiscal 2023, spending by DSS (which is comprised of both DHS and HRA), constituted the largest portion, 52.7 percent, or \$764 million, of total citywide spending on the asylum seeker crisis. Spending by H+H, totaling \$476 million, made up the second largest portion of Fiscal 2023 asylum seeker spending, at 32.9 percent.

In Fiscal 2024, H+H expenditures have increased at a faster pace in comparison to the prior year than DSS expenditures. H+H expenditures make up the largest portion of asylum seeker spending in Fiscal 2024, at \$592.0 million, or 44.7 percent of total asylum seeker spending. In comparison, DSS spending in Fiscal 2024 is only \$401.0 million, or 30.3 percent of total spending. The agency breakdown of actual spending in Fiscals 2023 and 2024 is detailed in Table 5.

On November 20, 2023, the Mayor issued a second PEG letter (the first PEG letter was issued on September 9, 2023), which indicated that the Fiscal 2025 Preliminary Plan will include a 20 percent PEG for asylum response expenses in Fiscals 2024 and 2025. The letter indicated that the PEG will target a reduction of per diem costs and the length of shelter stays. The cost reduction effort will be led by the Mayor's Office of Asylum Seeker Operations and OMB. No further details on how this will be achieved, or which agencies will be impacted, were available at the time this report was finalized.

Program to Eliminate the Gap (PEG)

Prior to the November Plan, in September the City's Office of Management and Budget (OMB) informed all agencies that they were required to present proposals for expenditure reductions and revenue enhancements that equaled at least 5 percent of the agency's city-funded expenditures in each year of the Plan as presented at adoption.

All agencies ended up meeting the targets for the PEG. As displayed in Chart 3, the November Plan Citywide PEG totals \$1.71 billion in Fiscal 2024, \$1.97 billion in Fiscal 2025, \$1.92 billion in Fiscal 2026, and \$1.95 billion in Fiscal 2027.

PEGs by Type

Expense re-estimates, accounting for nearly 30 percent of the PEG in Fiscal 2024 (\$510 million) and Fiscal 2025 (\$608 million).

Chart 3: PEGs by Year and Type (\$ in Millions)

Source: OMB, “November 2023 Program to Eliminate the Gap (PEG), Fiscal Years 2024-2027”

Efficiency. Efficiencies are changes to agency practices that reduce city spending or increase revenues without reducing service levels. This may include lowering spending, optimizing grant claiming, or increasing revenue collection. Efficiencies make up the largest portion of the PEG across the Plan. Savings resulting from efficiencies make up 33 percent in Fiscal 2024 totaling \$562.1 million in Fiscal 2024, growing to \$807.7 million (41 percent of the PEG) in Fiscal 2025.

Expense Re-estimate. Expense re-estimates include lower than expected spending due to a delay or lower than expected costs. Expense re-estimates make up 30 percent of PEGS across the Plan. In Fiscal 2024, expense re-estimates total \$509.9 million or 30 percent of PEGs, increasing to \$607.8 million or 31 percent of PEGS in Fiscal 2025.

Revenue Re-estimate. Revenue re-estimates are additional revenue recognized by an agency. These can include grant claiming that results in a funding shift or an increase in City funds revenue. Revenue re-estimates total \$544.0 million or 32 percent of PEGs in Fiscal 2024, declining to \$170.9 million or 9 percent of the program in Fiscal 2025.

Service Reduction. This category includes savings due to the scaling back of programs, resulting in a decrease of services provided to the public. The Plan includes savings of \$72.6 million, or four percent of the PEG in Fiscal 2024, growing to \$370.6 million (under 19 percent of the PEG) in Fiscal 2025. Some of these reductions include the cancellation of police officer academy classes, the elimination of City funding for community composting programs, reductions in litter basket services, and the reduction of the Jobs Training program at the Department of Social Services (DSS), Department of Sanitation (DSNY), and the Department of Parks and Recreation (DPR).

Debt Services. The Plan includes savings of \$24.0 million, or one percent of the PEG in Fiscal 2023, growing to \$119.4 million in Fiscal 2027 resulting from refinancing and other actions related to the cost of servicing the City’s debt.

PEGS by Agencies

The November Plan PEG has a value of \$1.7 billion in Fiscal 2024, and approximately \$1.9 billion in Fiscal 2025, Fiscal 2026, and Fiscal 2027. Most of the PEG value is resultant of actions in three agencies, Human Resources Administration (HRA) including the Department of Homeless Services (DHS), the Department of Education (DOE) and the NYC Police Department (NYPD), as shown in Table 7. In Fiscal 2024, PEGs for these agencies totaled \$999.3 million or 58 percent of all PEGs in that year, growing to \$1.1 billion or 57 percent of all PEGs in Fiscal 2025. PEGs resulting from non-agency actions (debt service savings and savings in the miscellaneous budget) total \$74 million in Fiscal 2024, \$191 million in Fiscal 2025, \$224 million in Fiscal 2025, and \$236 million in Fiscal 2026. Appendix 1 presents the full list of PEGs by agencies, while this section reviews the changes by agency.

- PS Accruals - \$102.7 million in Fiscal 2024 in savings from salaries and fringe benefits due to vacant pedagogical positions.
- Per Diem/Per Session - \$85.9 million in Fiscal 2024 growing to \$96.3 million in outyears impacting programs outside of normal school hours.
- Vacancy Reductions - \$80.4 million in Fiscal 2024 and \$69.3 million in outyears. Civilian headcount reduction of 680 in Fiscal 2024 and 432 in the outyears.
- Hiring Freeze - \$77.7 million in Fiscal 2024 and \$25 million in the outyears. This largely applies to Civilian positions at Central Office. Principal hires are not affected by the hiring freeze.

- School Food: \$60 million each year. This is a swap of City to Federal funds for \$60 million in Fiscal 2024 and the outyears. City identified Federal funds due to a rule change that lowered the threshold for eligibility. Allowed DOE to take a PEG on City funds.
- MTA Prepayment - \$45 million savings in Fiscal 2024. Student Metrocards for Fiscal 2024 that were paid for in Fiscal 2023.
- OTPS Spending Freeze - \$35 million in Fiscal 2024. This includes restrictions on OTPS items spending like travel, consultants, and equipment.
- Early Childhood PS Accruals - \$25 million in PS accruals in Fiscal 2024 for vacancies in DOE-run classrooms.
- Early Childhood Efficiencies - PS and OTPS cost savings of \$120 million in Fiscal 2025 and outyears in OTPS. Service reductions driven by 37,000 3k/PreK empty seats leading to potential savings in PS and OTPS budgets.
- Community School Allocation: \$10 million in Fiscal 2024 and \$8 million in the outyears. The programs effect has not been determined – 161 of the 421 total Community Schools would receive program reductions.
- Superintendent Budgets - \$8.8 million in Fiscal 2024, \$9.3 million in Fiscal 2025 and \$9.5 million in Fiscal 2026 – 2027.
- Computer Science for All - \$3.5 million in Fiscal 2024. Total Computer Science for All budget for Fiscal 2024 is now \$10.1 million.
- Vacancy Reduction for School Safety - \$3.3 million in Fiscal 2024, \$13.8 million in Fiscal 2025, \$5.3 million in Fiscal 2026, and \$7.8 million in Fiscal 2027. Half of PEG split equally with NYPD for cuts to vacant SSA positions.

Human Resources Administration (HRA) + Homeless Services (DHS)

The DHS and HRA portion of the PEG totals \$322.0 million in Fiscal 2024, \$101.0 million in Fiscal 2025, \$100.3 million in Fiscal 2026, and \$95.0 million in Fiscal 2027. The Departments' PEG is comprised of:

- Prior Year Revenue – In the November Plan, \$284.4 million in City funds are swapped for State and federal funding in Fiscal 2024 for HRA. The revenue is from several funding sources for various social service programs, including Cash Assistance and Medicaid.
- Special Housing Assistance Resource (SHARE) Program – There are PEGs of \$31.7 million in Fiscal 2025, \$30.1 million in Fiscal 2026, and \$24.6 million in Fiscal 2027, from anticipated savings related to reduced shelter stays and increased shelter exits from the new SHARE program. The program is funded by State's Rental Supplement Program (RSP) and will be targeted to long-term DHS clients that are ineligible for other rental assistance programs (non-asylum seeker, undocumented clients).
- Elimination of the Job Training Program (JTP) – SNAP and Cash Assistance recipients have federally-mandated work requirements and JTP, one of the employment programs at HRA, placed HRA clients in jobs at DPR and DSNY to meet this requirement. HRA has capacity in its other employment programs, which are largely contracted. JTP will be

ramped down over the course of Fiscal 2024 and fully eliminated starting in Fiscal 2025. Savings of \$13.9 million in Fiscal 2024, \$28.8 million in Fiscal 2025, \$29.6 million in Fiscal 2026, and \$29.8 million in Fiscal 2027 are included due to the elimination of this program.

- Overtime Savings – Baselined savings of \$16.5 million, starting in Fiscal 2025, are included in the November Plan for an anticipated reduction in staff overtime at HRA. As new employees that were hired recently are trained, HRA estimates it will clear the severe processing backlogs in benefit programs, such as Cash Assistance and SNAP, and no longer need as much overtime in future years.
- Child Care Block Grant – In the November Plan, \$15.5 million in baselined City funds will be swapped for federal funds from the Child Care Block Grant (which subsidizes childcare for low-income households), starting in Fiscal 2024. There is no net impact from this change. This funding relates to the eligibility screening and administration of benefits to HRA clients. The cost of the vouchers is budgeted through the Administration for Children’s Services.

Administration for Children Services (ACS)

The ACS portion of the PEG totals \$42.6 million in Fiscal 2024, \$41.8 million in Fiscal 2025, and \$42.1 million in Fiscals 2026 and 2027. ACS’s PEG is comprised of:

- Committee on Special Education Re-estimate – The November Plan includes savings of \$10.1 million in Fiscal 2024, \$5.2 million in Fiscal 2025, and \$5.4 million in Fiscals 2026 and 2027, as a result of underspending on room and board for out-of-State Carter Case placements. The cost of school tuition for Carter Cases is paid by DOE and ACS funds the room and board expenses.
- Close to Home – Baselined savings of \$6.8 million are included, starting in Fiscal 2025, for the Close to Home program due to a slot re-estimate under a recent RFP. The number of slots was reduced due to underutilization, from 201 to 135.
- Childcare Revenue Maximization – A baselined adjustment of \$5.5 million, starting in Fiscal 2024, swaps City funding for federal Childcare Block Grant funding related to childcare expenses for children in foster care. This change has no net funding impact.

These changes increase the budget by \$11.6 billion across the plan period: \$4.0 billion in Fiscal 2024, \$4.5 billion in Fiscal 2025, \$2.0 billion in Fiscal 2026, \$985 million in Fiscal 2027. The majority of the additional expenses categorized as Other Adjustments are associated with increased costs related to asylum seeker operations and collective bargaining.

As shown in Table 8, approximately 39 percent of the Other Adjustment expenditure increase in Fiscal 2024 is funded by City funding, increasing to 95 percent in Fiscal 2025 and outyears. In Fiscal 2024, federal sources make up 32 percent of the increase, while state funding makes up 21 percent. In Fiscal 2026, City funding makes up over 93 percent of the increases. Below we outline the major changes.

- **Aid for Asylum Seekers.** In the November Plan, additional funding added across City agencies for asylum seeker response efforts totals \$1.83 billion in Fiscal 2024, \$5.10 billion in Fiscal 2025, \$2.00 billion in Fiscal 2026, and \$1.00 billion in Fiscal 2027. This brings total asylum seeker response funding up to \$4.74 billion in Fiscal 2024, \$6.10 billion in Fiscal 2025, \$2.00 billion in Fiscal 2026, and \$1.00 billion in Fiscal 2027.
- **Department of Education (DOE).** The November Plan includes an additional \$775.6 million in Fiscal 2024, \$1.04 billion in Fiscal 2025, \$1.61 billion in Fiscal 2026 and \$2.04 billion in Fiscal 2027.
 - UFT Collective Bargaining – The November Plan includes elements of UFT's ratified collective bargaining contract. \$568.8 million in Fiscal 2024, \$948.1 million in Fiscal 2025, \$1.5 billion in Fiscal 2026 and \$1.9 billion in Fiscal 2027.
 - Other Collective Bargaining - Other ratified Union contracts, including Custodians, CWA and International Brotherhood of Teamsters totaling \$51.7 million in Fiscal 2024, \$49.4 million in Fiscal 2025, \$62.9 million in Fiscal 2026 and \$71.1 million in Fiscal 2027.
 - American Rescue Plan Adjustment – The plan includes a decrease of \$204.8 million in Fiscal 2024 and increase of \$96.2 million in Fiscal 2025 in City funds due to funding swap of American Rescue Plan funds; net change of \$0.

- Federal Food Revenue/Food Savings - Swap of City to Federal funds for \$60 million in Fiscal 2024 and the outyears. City identified Federal funds due to a rule change that lowered threshold for eligibility. Allowed DOE to take a PEG on City funds.
- Revenue Adjustment - \$49.4 million in Fiscal 2024. Funding from SCA to pay DOE to do cafeteria enhancement.
- DOE-Workforce Program- Increase of \$7.1 million in Fiscal 2024 in Intracity funding.
- **Human Resources Administration (HRA).** The November Plan includes other adjustments that increase HRA's budget by \$2.1 million in Fiscal 2024 and \$3.7 million in Fiscal 2025, and adjustment that decrease it by \$4.2 million in Fiscal 2026 and \$3.0 million in Fiscal 2027.
 - Prior Year Revenue – In Fiscal 2024, \$250 million in City funds are swapped for federal funding, resulting in no net change to HRA's budget. The additional revenue received largely relates to funding for Cash Assistance benefits.
 - American Rescue Plan Funding Swap – In the November Plan, City funding of \$181.1 million in Fiscal 2024 and \$66.2 million in Fiscal 2025 is swapped for federal pandemic-related funding. The federal aid was reallocated from several other agencies and results in no net change to HRA's budget. The funding is allocated to the CityFHEPS rental assistance program.
 - Medicaid – In Fiscal 2024, \$20 million in City funds are transferred from HRA to Health + Hospitals for Medicaid-related expenses.

This funding will cover the cost of the rental vouchers.
 - Aid to Asylum Seekers – An additional \$356,300 in State funds were included in Fiscal 2024 and \$13.8 million in State and City funds in Fiscal 2025 for expenses related to asylum seeker response efforts. In Fiscal 2025, \$13.5 million supports the operations of the City's asylum seeker navigation center, as well as HRA staff overtime.
 - Elimination of the Job Training Program (JTP) – To meet federally-mandated work requirements, HRA places Cash Assistance and SNAP clients in workforce programs. One of the workforce programs, the JTP made job placements at DSNY and DPR. The program will be ramped down over the course of Fiscal 2024 and fully eliminated starting in Fiscal 2025. Other adjustments for HRA in the November Plan include a reduction of \$19.4 million in Fiscal 2024, \$39.3 million in Fiscal 2025, \$39.9 million in Fiscal 2026, and \$39.6 million in Fiscal 2027. The

November Plan transfers this funding from HRA to DSNY and DPR so those agencies can take a portion of the PEG credit for the elimination of the JTP program.

- **Department of Homeless Services (DHS).** Other adjustments for DHS include a net reduction of \$349.5 million in Fiscal 2024 and net increases of \$1.26 billion in Fiscal 2025, \$2.0 billion in Fiscal 2026, and \$1.0 billion in Fiscal 2027.

 - In Fiscal 2026, \$2.0 billion in City funds were added, which is the entirety of the current funding for asylum response efforts in Fiscal 2026.

Adopted Capital Commitment Plan for Fiscal 2024-2027

The Adopted Capital Commitment Plan (Adopted Plan), released on September 28, 2023, includes \$94.3 billion (all funds) in planned commitments citywide. This represents a decrease of \$2.02 billion from the Executive Capital Commitment Plan total of \$96.37 billion.

Chart 4: Adopted vs Executive Capital Commitment Plan by Fiscal Year, 2024 –2028

The variance between the Executive Capital Commitment Plan and the Adopted Plan, is primarily the result of planned commitments being rolled out of the current plan period (FY24-FY28) beyond Fiscal 2028. This is in line with the Administration’s effort to right size the City’s Commitment Plan. In addition, roughly \$2.2 billion of commitments originally planned for Fiscal 2023 have been shifted into the four-year Adopted Plan period. New appropriations of roughly \$16.76 billion that were added in Fiscal 2025 to the Adopted Capital Budget by the Mayor, City Council, and Borough Presidents also increased planned commitments in the Adopted Plan.

Financing and Debt Service

New York City sells bonds to fund its capital program. In the November Plan it is estimated that the City will undertake \$51.6 billion in long-term borrowing over the next four fiscal years to finance the City's many capital needs outlined in the current plan. The largest sources of this borrowing include an estimated \$21.9 billion in General Obligation (GO) bonds and \$22.0 billion in bonds of the New York City Transitional Finance Authority (TFA). Bonds for the New York City Municipal Water Finance Authority (NYW) make up the remaining \$7.8 billion in borrowing in the November Plan. NYW finances the debt it issues with revenues collected from water and sewer fees. The debt services cost for Fiscal 2024 total \$7.7 billion and total \$34.4 billion across the Financial Plan period. A summary of the debt service financing plan is presented in Table 10.

The City's borrowing strategy is a function of numerous factors, including but not limited to financial market conditions, economic pressures like sustained inflation, the City's capital project schedule, and cash flow considerations. The financing plan does not directly align with the Ten-Year Strategy or the Commitment Plan, as it more closely follows the City's actual capital expenditures in any given year. Making the Strategy and Commitment Plan more accurate and realistic would assist in better illuminating the connection between what the City spends on capital projects and how it pays for them.

1) TFA Bonds do not include Building Aid Revenue Bonds issued for education capital purposes which are secured by Building Aid revenues from the State

The City's total debt outstanding in Fiscal 2024 remained below its constitutional debt limit of \$131.6 billion. The debt limit is projected to grow to \$152.5 billion in Fiscal 2027. Over the same period, total indebtedness against the limit is projected to grow at an annual rate of 10 percent, reaching \$124.9 billion by Fiscal 2026.

Debt Services Savings

The November Plan includes \$242 million in debt services savings across the financial plan period. The debt service budget serves as a routine source of savings for the City as savings from lower-than-assumed interest rates are recognized and refunds accumulate over the course of the fiscal year. This means the debt service budget tends to be overstated for the outyears, and while the November Financial Plan projects that debt service will stay in line with measures of best practice and affordability over the financial plan period, it is likely that actual debt service costs will be even lower in the outyears than currently projected. However, U.S. annual inflation and interest rates continue to sustain higher levels than prior to the pandemic, creating uncertainty in debt services savings moving forward.
