Fiscal 2027 Preliminary Plan

Department of Small Business Services Overview

The Department of Small Business Services (SBS, or the Department) is dedicated to making it easier for small businesses in New York City to start, operate, and grow by providing direct assistance to business owners, fostering commercial districts, and linking employers to a qualified workforce. The Department has seen several changes to its budget since the release of the Fiscal 2026 Adopted Plan in June 2025.

SBS has a unique budget structure containing pass-through funding for various entities including the New York City Economic Development Corporation (NYCEDC), NYC Tourism + Conventions (NYC Tourism), Brooklyn Navy Yard (BNY) and the Trust for Governors Island (TGI). The funding for these pass-thru entities are allocated in specific Units of Appropriation (U/As): 006 for EDC and 012 for the others.

The Preliminary Financial Plan for Fiscal 2026-2030 (Preliminary Plan) includes a proposed Fiscal 2027 budget of \$185.5 million for SBS. Of SBS’s total Fiscal 2027 budget, \$115.3 million or 62.2 percent supports the Department, with the remaining \$70.2 million or 38.8 percent for pass-through entities. SBS’s Fiscal 2027 standalone budget is \$5.4 million (4.7 percent) more than its \$109.9 million Fiscal 2027 budget in the November Plan. SBS’s standalone \$210.6 million Fiscal 2026 budget in the Preliminary Plan is \$36.7 million (17.4 percent) more than its \$173.9 million standalone Fiscal 2026 budget in the November Plan. The current Fiscal 2027 budget is \$58.2 million less than the \$173.5 million Fiscal 2026 budget at adoption. The difference between the two plans is primarily the result of one-year funding that the Council had negotiated with the Administration for inclusion in the Fiscal 2026 Adopted Budget last June.

Budget Actions in the Preliminary Plan

Dollars in Thousands

Savings in this chart are the sum of all expense savings, from all revenue sources, including but not limited to, City, State, and federal savings.

Preliminary Plan Changes

Significant Preliminary Plan Changes

New Needs

- NYC Business Express Service Teams (NYC BEST).** The Preliminary Plan includes an additional \$2.0 million in Fiscal 2026 and baselined increase of \$4.0 million beginning in Fiscal 2027 for NYC BEST. NYC BEST provides businesses with assistance complying with regulations, assists in streamlining permitting and inspections, to hopefully help reduce the risk of fines. Much of this new funding will support 30 new positions, although no positions have been hired yet, which could result in PS savings in the current year. The funding will primarily support small business advocates and liaisons who are expected to assist over 2,500 businesses per year.
- Customer Relationship Software.** The Preliminary Plan includes an additional baseline of \$429,931 of City funds beginning in Fiscal 2026 for a contract with the Office of Technology and Innovation regarding an existing software program contract.

- **Jamaica Rezoning Administration.** The Preliminary Plan includes an additional \$140,000 of City funds baselined starting in Fiscal 2027 to cover general administrative functions of programming associated with the Jamaica, Queens, neighborhood rezoning.
- **Jamaica Workforce Small Business Program.** The Preliminary Plan includes an additional \$200,000 baselined beginning in Fiscal 2027 to bolster the level of small business support that SBS already provides in Jamaica, Queens. Funding includes support for Minority- and Women-Owned Businesses (M/WBEs) in the area and workforce development programs.
- **LIC Small Businesses.** The Preliminary Plan includes an additional \$100,000 in City funds baselined starting in Fiscal 2027 to support M/WBE small business solution centers to help provide more assistance and aid in advertising the program.
- **Cost of Living Funding Adjustment (COLA).** The Preliminary Plan includes an additional \$298,600 in Fiscal 2026 and \$454,651 baselined starting in Fiscal 2027 for costs associated with COLAs for staff at contracted providers. The Office of Management and Budget (OMB) and SBS reviewed how budgeted funding for COLA payments compare to recent spending and made baselined adjustments, as needed, for impacted agencies.

Other Adjustments

- **Mayor’s Office of Media and Entertainment (MOME)-SBS Workforce Development.** The Preliminary Plan includes an additional \$1.0 million of intra-City funding to support the partnership that the Mayor’s Office of Media and Entertainment has with SBS. This is an existing program and is funded for one year at a time as contractual funding.
- **Workforce Innovation and Opportunity Act (WIOA) Realignment.** The Preliminary Plan reflects an additional \$31.0 million of federal funds in Fiscal 2026 associated with WIOA grant awards. The additional funding brings the total SBS award from WIOA to \$72.0 million. WIOA grants are distributed by the federal government once every two years, grant awards that are not used in Fiscal 2026 will be rolled forward to the second year. The goal of WIOA is to strengthen and improve the workforce by helping youth and those with barriers to employment attain high-quality jobs and careers.

Preliminary Mayor’s Management Report

The Preliminary Mayor's Management Report (PMMR) for Fiscal 2026 reports on four service areas and five goals for SBS. Noteworthy metrics that were reported are detailed below.

- **Minority-and Women-Owned Businesses (M/WBEs).** In the first four months of Fiscal 2026, SBS had 914 newly certified and re-certified businesses in the M/WBE Program, an increase of half a percent when compared to the first four months of Fiscal 2025. In Fiscal 2025, 1,844 M/WBEs were awarded City contracts by SBS, an increase from the 1,809 awarded in Fiscal 2024 but still lower than 1,903 in Fiscal 2023, all of which still exceed

the target of 1,223. SBS should consider increasing its targets for these indicators to provide a more expansive goal for the Department. SBS has steadily increased the number of M/WBEs certified in the City, from 10,799 in Fiscal 2023 to 11,392 by the end of October 2025.

- **Business Assistance.** In the first four months of Fiscal 2026, the number of financial awards to businesses (facilitated or disbursed) decreased to 164 from 183 in the first four months of Fiscal 2025. Additionally, the dollar value of financial awards facilitated or disbursed by SBS decreased from \$19.3 million to \$13.4 million during the same four-month period. The Department cites a higher number of microloans deployed and a more conservative lending environment as partial explanation for this decrease. Since Fiscal 2023, financial awards to businesses have steadily been decreasing, from a high of 1,312 that year to 563 in Fiscal 2025. Businesses opened with assistance from SBS also decreased, from 97 in the first four months of Fiscal 2025 to 72 in the same period in Fiscal 2026. The PMMR reports that SBS awarded one employer-based training grant during the first four months of Fiscal 2026, a decline from the five awarded in the same period last fiscal year, which reflects a temporary lag in grant awards due to a change in the program's funding structure.
- **Workforce1 Career Centers.** The overall walk-in traffic at Workforce1 Centers rose 12 percent in the first four months of Fiscal 2026 as compared to the same period in the prior year. This is attributed to increased community outreach and hiring events through the Jobs NYC initiative. Over the same periods, Workforce1 saw a 17.5 percent decrease in system-wide hires and promotions, decreasing from 7,787 to 6,424. Over the last three fiscal years, systemwide hires and promotions have remained below the target of 25,000, with only 22,502 in Fiscal 2025. Additionally, customers enrolled in SBS training decreased by 33.7 percent in the first four months of Fiscal 2026 as compared to the same period in the prior year.

Budget Issues and Concerns

- **Vacancy Rates.** SBS continues to experience one of the highest vacancy rates among City agencies, raising concerns about its staffing capacity and operational effectiveness. As of January 2026, SBS reported a vacancy rate of 23.0 percent, representing 125 unfilled positions across the agency, which greatly exceeds the Citywide average vacancy rate of 5.0 percent in February 2026. The scale of these vacancies raises questions about SBS's ability to operate efficiently and effectively, particularly in administering programs and services that support small businesses and workforce development initiatives throughout the city. Persistent staffing shortages may place additional strain on existing staff and limit the agency's capacity to fully implement its programs. This highlights ongoing workforce challenges that may affect the agency's ability to meet its programmatic goals and maintain services.

- Federal Funding.** The Trump Administration has signaled the potential that federal financial assistance to New York City could be withheld. While no formal reductions or funding cuts have yet been enacted, the possibility of such actions has already introduced a degree of fiscal uncertainty into the City’s long-term financial outlook. SBS’s Fiscal 2027 budget contains a significant amount of federal support. Specifically, the plan anticipates \$43.4 million in federal contributions in Fiscal 2027, representing approximately 37.7 percent of the Department’s standalone \$115.3 million budget. Should the City ultimately be unable to secure the anticipated federal appropriations, SBS would likely confront a notable budgetary shortfall. In such a scenario, the funding gap would need to be closed in subsequent financial plans, potentially by reallocating city resources, identifying alternative revenue streams, or adjusting the scope and timeline of planned SBS investments. Consequently, while the projected federal funding remains incorporated in the Preliminary Plan, its uncertainty underscores the importance of contingency planning in ongoing budget deliberations.
