**JOINT STATEMENT FOLLOWING INDUSTRY
CITY'S DECISION TO DELAY THEIR ULURP
APPLICATION**

March 8, 2019, New York, NY - City Council Member Carlos Menchaca and Brooklyn Community Board 7 Cesar Zuñiga issued the following statement following Industry City's decision to delay their ULURP application for a rezoning proposal:

“This is the right call and we thank Industry City for living up to its prior commitments to engage with the Sunset Park community by delaying its ULURP application. In addition to needing time to complete the community engagement process it started last year, a critical and transparent analysis of the rezoning's proposals possible effects on displacement must be analyzed before starting ULURP. We look forward now to working with Industry City in a community-led process to ensure the rezoning proposal benefits the entire community.”
